The Colors Seem Brighter ...

It left us with something that nothing ever dared to give.
It could never be transcended ...
It filled us with feelings that had been experienced before
Yet, they seemed so new ...
Colors seemed brighter, the water seemed clearer.
It was so free and natural ...
How could we have known that it would all end so soon.
What a feeling—to have the edge on it all.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people in the community. The Department of Health (1999) has published a strategy for older people, which sets out the government's commitment to older people and the actions that will be taken to improve their lives. The strategy is based on the following principles: older people should be able to live independently, safely and comfortably; older people should be able to participate in the community; older people should be able to access the services they need; and older people should be able to live in the place of their choice. The strategy is being implemented through a number of initiatives, including the Older People's Budget, the Older People's Survey, and the Older People's Forum.

The Older People's Budget is a £1.5 billion package of measures designed to improve the lives of older people. It includes measures to improve housing, transport, and social services. The Older People's Survey is a national survey of the needs and views of older people. The Older People's Forum is a national forum for older people, which brings together representatives of older people, government, and service providers. The forum is responsible for developing and implementing the Older People's Strategy.

W e've Got The Edge!

A crystal lake

There are droplets on the edge of a tree branch. Some fear the fall to the dry ground below; it may swallow them up.

But Nature forces them down.

Some look at the muddy ground created by those before them and are repulsed by it. They hug the branch.

But nature forces them down.

The rest, though, see a vision of a crystal lake and let go.

And Nature welcomes them.

Highland High is on the edge of a new beginning—the edge of a decade, the new beginning of a presidency, the edge of a newer administration—but we close the decade with worry for our planet: The greenhouse effect and the missing ozone layer heat us, the number of wars is accelerating, the earth reacts with earthquakes, and Americans have a deficit to worry about.

Yet, with all these problems, one hope remains. We can make the choice between clinging to the branch or leaping into a crystal lake. We have the power to change the world . . .

On the edge we stand, with visions of a new beginning,

For WE'VE GOT THE EDGE.

Robinson

The difference is within us

The edge: the end of something, the beginning of nothing.

Sitting on the edge of water, one can see himself. As the water changes tides, he changes emotions. A high tide can bring feelings of fulfillment.

Sitting on the edge of the woods, one can see the seasons change. They change just as characteristics of people do; spring and summer colors soon fade to bare and bleak faces; yet there is always something to remind him of what can be accomplished when one lets time take control.

Standing on the edge of a cliff, one can experience nature just as he can experience himself. He can cleanse his mind with fresh air and express his ideas by seeing how nature expresses hers.

A gentle breeze lets him relieve his stress and look at life in a different perspective.

Living on the edge of life, one can live freely and achieve all his goals without a second thought. He is an individual; therefore, he is open to all life has to offer.

Being on the edge of freedom, means being an individual.

Life!

Making the most of high school days

Things to do, places to go, people to see . . .

This is a phrase that many students at Highland High School can relate to. Considering all of the things that come along with high school, students can rarely find time to relax. After school hours are usually spent doing homework, working, going to practices, meetings, and clubs.

Students do, however, have weekends to recuperate, but instead choose to make their weekends jam-packed with activities. Some of these activities include going to basketball and football games, dances, parties, shopping, or even a night at the bowling alley.

With all of these things to keep students busy, they often begin to feel "bogged-down". If this happens, just stop and think of how boring high school would be if there was nothing to do but school work. Perhaps fun filled weekends are a way to recuperate from the daily routines of school. Everyone has things to do, places to go, and people to see.

The two competitors would be able to control one leg apiece. The other, quite uncontrollable leg, consisted of a bag stuffed with two separate legs being shared between friends. Then they would take off in a

Serving as royalty, Queen Laura Rakoczy and King Ken Riley were chosen by the school in a special election.

perfect rhythm, gallop halfway, do a 180, and return for the finish. If the three legged pair limped to victory, they reserved the right to brag. And if the losers planned on not getting enough, they signed up for the egg toss. The sideline crowd moved closer to the action-either from the want to see better or of the want to get egged.

Lucky for them the balloon toss followed; as the distance became challenging, balloons began to fly like kicked footballs. Only the team of Hirschak and Fritter survived-in time to reach the climax of the competition.

Anchors against anchors-class against class. Shelly Adams,

anchor for the senior girls' team, showed the defeat in her grass-stained clothes, and the sophomores showed victory by crowding in a huge huddle and leaping for the sky.

Unfortunately, Tim Herring, the junior's anchor, didn't experience the senior/junior tug quite the same way. He spun around in his loop, clawed the grass, and grunted, trying to pull the seniors to defeat.

The pep rally soon ended with the seniors on top of all competitors.

We're all superstitious! Who'd pass up a penny on the sidewalk, to gain some extra luck?

UPERSTITIONS

Baron

Almost everybody is superstitious in some way. Who would pass up a chance to gain a little bit of extra luck? People become more superstitious during times when something could be dangerous or when winning means everything.

Many people may say they don't believe in superstitions, however there aren't many people who have never picked up a penny on the sidewalk, or carried a rabbits foot. These are some of the more common superstitions. Senior Laura Golumbeck says, "The other day I was walking outside when I passed up a penny laying on the

sidewalk, I just couldn't resist going back and picking it up."

Michele May says that whenever she has a big test she has to dress in comfortable clothes, like sweats. She says she's been doing this for so long that she's afraid to dress up on big test days. Sherri Sepiol expressing one of her superstitions say's, "Whenever I get out of the shower I have to take a brown towel, even if it's on the very bottom of the shelf. I just can't take the orange or beige towel, it absolutely has to be brown."

Superstitions are found many times in sports. Senior football player Matt Leyva say's "On

the way to every game I have to wear my Georgia hat." He thinks if he doesn't wear the hat they'll lose. Junior swimmer Kelly Kerr says she has to eat blueberry oatmeal before every Saturday meet, and drink apple juice before every other meet. If her goggles aren't on perfectly, then she believes that she'll do very poorly.

Not everyone believes that their life is in danger if a black cat crosses their path, or if they break a mirror. But most people do have a little bit of superstition in them, somewhere!

Jennifer Morton

E MOTIONS

The desire to live burns strong in everyone's heart. These are the best four years of our lives!

The romance of a date, the intensity of a game or the value of a friend. Whatever the situation may be, emotions usually run deep.

Emotions play a big part in the outcome of a person's high school career. Whether it be trying 110% to win a game, taking out that really special someone or spending time with your best

friend, emotions are present.

Emotions can range from desire to love to hate. Athletes share a common emotion in the heat of a game. The desire to win burns strong in everyone's heart.

A love between friends is something everyone understands. (Black and white just captures the moment.) To be

able to just call someone and say “Hey lets go out.”

Chris Neemeth and Michele Greeson show their emotions differently. Most high school couples see a friend, and a love that they need.

Emotions run high in high school. Sports, love, and friends give the will to win.

Ken Churilla

Root

SPIRIT

Credit is always given where credit is justly due

The bleachers are packed.

Everybody is anxious for the game to begin. Whether it be basketball or football, volleyball or baseball, there will always be a crowd of Highland fans in attendance. Both students and parents travel in all kinds of weather to cheer on their favorite team. If the game happens to be away, cars full of teenagers stream onto the expressways just to be a part of the long awaited Friday's game.

During the weeks that come before and after the regular season, usually referred to as Spirit Week, students and faculty participate in many zany activities. It is not uncommon to see people walking around in their pajamas or togas between classes. However strange some of them may seem, most everybody en-

joys themselves.

After the games, players and fans flock to the local hang-out. Burgers and cokes make up the main menu, but once in a while some decide to go out for a pizza instead. Dances are another form of school spirit. They also serve as a place to go when one needs to warm up after standing outside at a pep-rally.

Whatever their taste may be, each student expresses his appreciation to players and fans in one way or another. Victories are taken with pride and losses are accepted as a part of life. Nobody is ever forgotten in "the fight to the finish". Credit is always given where credit is due and no one is ever ashamed to wear the school's colors.

W

AKE UP !

ZZZ . . .

As you sit in class staring blankly at the clock and listening to the teacher lecture, you begin to think about how tired you are and how long of a day you've had. Your eyelids begin to feel like they are being weighed down and you fight against yourself to keep them open. Slowly the voice of your teacher sounds farther and farther away, as your head starts drooping towards your chest.

Suddenly you realize what you're doing, and snap your head back up. After you repeat this activity several times, it begins to look like you're pecking corn.

Finally, you decide to take the easy way out and rest your head on the desk and pray that the teacher doesn't notice you. Unfortunately he does, and you are awakened by the laughter of your classmates, and the loud voice of your teacher repeating your name.

This is not an uncommon sight in school, and most everyone has felt this way at one time or another. Whether it's from working too late, studying or just from messing around, many students don't get enough sleep; and therefore, tend to fall asleep in class.

Erin Dalton

Robinson

Robinson

Afraid of being called on, junior Ken Churilla ducks behind his books, while senior Chris Granger searches frantically for an answer. Meanwhile, senior Sharon Korczyk is sleepy!

Robinson

Robinson

THE ANSWER, PLEASE

"Had to work late last night, and I just did not have enough time to finish the reading assignment for English class. I just know he'll ask questions out loud too!"

Many students are faced with this type of problem at least once in their high school career, and everyone deals with it in their own unique way. The teacher is forming a question and is about to call on someone—How do students avoid getting called on?

Senior Sharon Korczyk pretends to be looking frantically in the book for the correct answer. She flips the pages back and forth, while always keeping a puzzled look on her face. One

of the more common ways to avoid being called on is to avoid student to teacher eye contact, "If I don't look at her, she won't call on me!" Then there is always the tactic of ducking down behind the person who sits in front of you. Who knows, maybe the teacher will think that you are absent.

Senior Dana Cizar says: "If I don't know the answer to a question, just as the teacher is about to call on someone I drop my pencil and pick it back up—it works every time. It seems like the teacher will never catch on."

Now if you are really desperate, you can use one of the more original tactics—start

coughing, it works like a charm! No one can help coughing, right?

If you want to make a class more exciting, all you have to do is to take a look around the room when a teacher asks a question. Observe all of the unusual things that people will do in order to escape the embarrassment of not knowing the answer to a question which is asked in class. It can be a very amusing site and it is also a dead give away as to who didn't study the night before. So the best thing to do in avoiding this embarrassing situation is take more time to complete your homework assignments.

Melissa Anderson

SPECIAL

SPOTS

It's a Saturday morning and you are sitting around talking on the phone with your friends trying to think of some exciting plans for the weekend. So you think, where can you go to have a lot of fun and be around friends?

This sounds like a familiar situation to many high school students at Highland. Often students feel like there is nothing to do on the weekends. Maybe the bored students who feel this way just need to find their own special spots.

A special spot is any place where students go to hang-out and be with friends. For instance, many Highland students enjoy going to Burger King after football and basketball games.

Another special spot is Chicago. The "Windy City" has a reputation for being entertaining and exciting, which makes it irresistible to Highland students.

When the weather is hot students find the beach not only a place to cool off and get a tan,

Chicago is an exciting and entertaining place to explore city life

but also a place to make new friends.

Let's not forget about Great America, Lemon Lake, Turkey Run, and Wright's Barnyard.

Try to remember these special spots next time there is nothing to do.

RAVEL

From Hawaii to France
and from Minnesota to
Florida, we see the world

From the moment the first bell rings on the first day of school, the countdown begins. Each student thinking and daydreaming about that place where he will go on VACATION!!! From foreign countries to places right here in the U.S., traveling is very appealing to high school students.

Many people have had the opportunity to travel in foreign countries. Last summer Greg Maravilla and Bill Schocke lived in Germany for seven weeks, while Connie Sizemore and Dina Adad spent their summers in France. These four traveled under the I.U. Honors Program which allowed them to experience the culture as a native while attending school. Debi Boyll also had the opportunity to travel to France under sponsorship of the Rotary Club. Other students who have visited foreign countries recently are Athena Rivera who traveled to Spain and Sue Ogrentz who visited London over Christmas

break. Sue had the opportunity to take part in the Lord Mayor of Westminster's New Year's Day parade.

Most students lack the funds required to travel overseas, so they choose to wander the United States during vacation. From New York to California, students find endless opportunities and interesting places to discover. During Christmas vacation many people head toward warmer weather in the south. Hawaii seems a popular place to vacation, as well as Florida. Others head to even colder weather to enjoy a week of skiing. Spring break is a time for many students to take a cruise or to visit friends and relatives. Weeks of planning and budgeting are involved in these trips which are a time for enjoying the freedom of traveling.

Debi Boyll

IU Honors student Debi Boyll spent her summer in France. Here she is pictured at the Eiffel Tower with Paris around her.

Bill Schocke and Greg Maravilla visit a German family, while Alison Miklusak enjoys a calm lake in Florida.

May

No fishing today for Jeff May at his Minnesota campsite. His vacation took place last summer during some valuable free time.

One of the most popular sights of all, the Eiffel Tower rises in the heart of Paris, drawing all travelers to ponder its size.

With lava rock behind her, Kelly Kerr enjoys a horseback ride in Hawaii during Christmas Break. No snow was to be found anywhere.

May

Boyll

Dalton

Erin Dalton and her sister Amy spent their Christmas Break enjoying the sun and skiing at the famous resort Lake Tahoe.

The mind makes all the difference as the person decides, moves, and meets the challenge of life

IND

Are you in your right mind? Are you in your left? A simple way to find out if you are in your right mind or not would be to take a deep look at where your talent lies.

The left side of your brain, as you may know, controls the right side of your body. If you can, say, prove proofs in Geometry with ease, you may be more left brained.

The left side of the brain is responsible for recognizing symbols that represent something, such as an addition sign or the phrase "Are you in your right mind?" Also, it helps to name things, describe them, and keep track of time.

The right side, however, is the creative, intuitive, and more relative side of the brain. It relies on direct meaning (like a more right brained individual may interpret "Are you out of your mind?" to mean exactly that, without a brain), intuitive forces (could not, for example, logically arrange or situations in order). (It would rather show the object as it exists in relation to another), nonverbal images (pictures in situations are recognized, but not described with words), and a freer sense of time (like dreaming.)

Mind over matter shows Jeanne Kaczka thinks, and Mr. Coudret gives blood in a happy mood. Mind over matter does make a difference.

Having a "right" or "left" brain does not make you better or worse, for most intelligent people have both sides well developed. But, you can find which side of your brain has more influence on you if you test yourself according to your talents. For example, you can't paint a picture that would be recognized, but you can solve any math problem you would be considered more left brained. Conversely, if you find yourself enjoying a creative outlet such as poetry or drawing.

News"**

Hoosiers Dan Quayle, Susan and Evan Bayh, and Mrs. Mosbacher make national news

ORLD

Three things that should never be spoken of are politics, religion, and sex.

It is time to violate that rule.

In politics, America faces for the first time in eight years the inauguration of a brand new president. George Bush, although winning the support of the nation, was faced with Dan Quayle by his side. Numerous remarks against the Senator, the most ferocious attack made by

Lloyd Bentsen, "Senator, you are no Jack Kennedy." Also though Mike Dukakis was the Democrat leader, Jesse Jackson ate up the support he received, and turned out a glutton.

Aside from politics, religion had its fill. Jimmy and Tammy Bakker were revealed as having extracted funds from their evangelical service with which he bought delicious food and fancy cars. Also, Jimmy Swaggart was

revealed of his sex scandal. Fortunately, he regained support by his public confession on television. Meanwhile, a group of protestors stood outside the cinema, objecting to the way Jesus was portrayed (more humanly than spiritual).

And, finally, sex. The AIDS virus was receiving its blow this year. Every house with a mailbox was to receive a pamphlet explaining AIDS, its causes and effects. Also, from television advertising told the truth and the blatant reality of contraceptive use and AIDS.

Still, many remained ignorant of the disease and fell victim to it. The Ryan White story was aired on television, telling of one of Indiana's small children undergoing the anguish of the deadly disease he contracted from a blood transfusion. Ryan White's house was burned to the ground, and he was taken from school. He was thought of as a sinner and a threat.

Now for the safe subject: NASA, the National Aeronautical Space Association, enjoyed a new start with the launch of the space shuttle Discovery, as Gorbachev and Reagan met for peace and arms reduction talks.

Jeremy Harri

Wife of Governor Evan Bayh, Susan visits Johnston School during the fall campaign. Mrs. Bayh is now Indiana's First Lady.

Mayr

Bush, Rushdie In News

As the year wore on, George Bush and his team took over the government. Vice-President Dan Quayle stood a heartbeat away from the presidency, and John Tower was blocked in his bid to be Secretary of the Treasury.

World news featured the ayatollah Khomeini calling for the death of author Salman Rushdie for his Book **Satanic Verses**. Governments were appalled by this action, and Iran even called for the death of Rushdie's publisher. Authors around the world met and read from the work, showing their determination to deep freedom of the press and one's ideas.

Florence Griffith Joiner, after winning the gold in the Olympics, retired from track.

As Florence Griffith Joiner retired with the gold, George Bush and Russia's Gorbachev met.

People

Place The Face

One day we'll have to face up to the fact that the face value of the face is not all that we're facing. We stand face to face with the challenge of viewing the face not as a face value illustration of what is going on beyond this mask, but as a happy (or sad) medium through which the mind yearns for expression.

So, essentially, we will have to deface the face to exclude the facade and reveal the truth.

But it's difficult. The same face that cries in sadness may cry with joy, an exhaustion can easily be (and has been, in many cases) mistaken for depression. How many times has surprise been mistaken for fear and interest mistaken for concern?

It's so expressive, yet so elusive, the face.

Mayer

Wilson

At the heart of any high school are its people. Whether they are working in class, sharing ideas and projects such as Chris Granger, Mike Edwards, and Derek Haas, enjoying honors, such as All-State Academic Athlete Becky Linger, or simply sharing friendship such as Angie Malkowski, and her friends Julie, Laura, Kris and Shelly—all become part of the faces which make up the fabric of Highland High School

Dalton

Administration

New team leads high school into the '90's

Behind the scenes in any well-run organization are the people who make the decisions and set the tone.

Highland administrators are led by Dr. Philip Cartwright, the superintendent. He is assisted by former high school Principal Judith DeMuth, Assistant superintendent Dr. Dennis Shawver, and Mr. Joe Bandura.

Highland's Board of School Trustees is again led this year by its president, Lawrence Vassar. Mr. Vassar has done much for the school system over the years. Other board members this year are Burton

Masepohl, vice-president, Judith Eller Bell, secretary, and the two new board members, Harry Ranney and Konnie Kuiper.

In her first year as Highland High School Principal, Mrs. Marion Hoyda led the school. Her assistant principals were Mr. Michael Boskovich and Mrs. Diane Henry.

One of the highlights this year was when Mrs. Evan Bayh, now Indiana's First Lady, came to Highland High and was greeted by Mrs. Hoyda and then Social Studies Coordinator, Mr. Gregory Petrin.

Principal Marion Hoyda and Social Studies teacher Gregory Petrin greet Susan Bayh in November as she campaigned for her husband.

Dr. Philip E. Cartwright serves as the superintendent of the Highland schools, and has done much for the school system.

Root

Mayer

FACULTY

Shelbourne Teacher of the Year

If one word could describe the teachers at Highland High, it would be dedication. Together they form an alliance that fights for education and student's rights.

One can often see them roaming around the halls after school, sponsoring extracurricular activities and tutoring those who need a little bit of help. They can also be found before school preparing the day's lessons.

Teachers at Highland go out of their way to make classes interesting. They will go to the very extreme in order to teach students about literature or even

math.

Every year, the faculty chooses one among them who represents the epitome of Highland teachers. This year, it was Mr. Dave Schelbourne. He, along with the rest of the guidance counselors helps students make decisions that will affect not only their high school careers, but their future careers as well.

Everyone knows it takes two to tango. Students and staff work together to keep that bond between them strong and vivacious for generations to come.

Whether it is in a small class where the teacher

has more time to give the individual, or in a large class where the homework for the teacher and the effort of reaching so many people is enormous, there are still precious moments which occur in every classroom. While machines may take up more space in the building and textbooks continue to be around, it is the special magic which happens between a student and a teacher which will always make education one of the best professions, and schools one of the most exciting places to be.

Caring people make a difference

Key to the kitchen staff are Kate Rentschler, Nancy Cowgill, Head Cook Jo Steffens, and Barbara Eder, as well as Mrs. Rosa Mazzocco, R.N.

Galich

Mayer

It takes an entire staff to make it all work out all right

Behind the Scenes

They say that behind the scenes one can always find people who make things run. They are seldom recognized, and often overlooked when accolades are being handed out.

Yet they often are the ones who make the difference between success and failure in any project.

Such are the secretaries, aides and other Highland personnel who keep much of the school running.

From Mrs. Hoyda's secretary Mrs. Nicholls and the two terrific people at the front desk—Mrs. Janet McDonald and Mrs. Marilyn Kuiper, one can find all throughout the school people who make a difference.

Mrs. Rose Ceperich works in Guidance, and of course the school nurse, though new to her job, has

also brought much help to students and staff alike.

While Mrs. Amy Gleason and "Sarge" Scott, as well as Mr. Roche keep things orderly and humming, there will always be time to say thanks to these people who mean so much to Highland.

New to the front office this year, Mrs. Marilyn Kuiper quickly became part of Highland's family.

Mayer

A smile and a kind word—all part of Mrs. Janet McDonald's cheerful personality.

FRESHMEN

Time for a lot of growing . . .

Coming into high school for the first time can be a big step: a big, frightening step.

The first few weeks of school most freshmen are lost and a little unsure of themselves and their new surroundings. After a while, however, things begin to smooth out, it becomes easier to deal with.

This year a lot of growing up occurs in several students. Sudden-

ly, decisions have to be made about college and careers. They are being confronted by teachers, counselors, peers, and even parents who are all concerned about their future plans.

The hardest part of this situation is not that you must work now to create a life for yourself, but in fact that while juggling with your grades, future, and friends, you are still living with and depending

on your parents.

Most people in high school want to date more or just go out with their friends, but this becomes difficult they have to access a ride from a parent.

Money is another of several perplexities in a freshmen's life, because life doesn't come cheap. But be optimistic, summer's coming.

Jenn Jarmula

Whether it's working alone, or getting involved in school activities, freshman year calls for action.

Education, relationships grow with maturity

Frosh

Highland High School offers the chance of a good education and to meet new friends. Although freshmen are often referred to as the "new kids", this can be a very exciting year if you let it.

Freshmen year is like a dog living in a new house. A student has to adapt to the different environment and social setting.

As freshmen in the first year of high school, it's a good time to gain new

ideas and interests.

In many respects a freshmen should put his or her past behind them and start over, for many people high school is a time to begin a new life style.

Education, relationships, maturing, experience and learning are all being introduced this year.

Don't feel bad if upper classmen harass the freshmen, it's only their way of saying, "I made it."

Freshman year—

A time for orientation

The years move on— All and so do we of us

As Freshman year ends, a summer happens all too quickly, and soon the school is the same again, but many things change.

With the beginning of each school year we become sophomores, or graduate to the upper class ranks of either juniors, or the crowning glory of all high school effort—senior year.

And as we change, so do the classes, as they may become harder, and the roles we play in various clubs and organizations become more demanding. People start looking to us for more responsibility, and while some fail to

measure up to those new expectations, others rise to surprise even themselves in the things they can accomplish and the grades or honors they can reach.

With Sophomore year some find new maturity, while others may wait until junior or senior year to claim the new and emerging adulthood they often seek.

With junior year there are new obligations, and new pressures in the form of time-consuming jobs.

Jeanne Kaszka stops to consider how much she has grown through the years, and the new maturity which seems to have come just with living.

Even in a classroom full of individuals, there is always the feeling of special chemistry which comes when any group of people get together.

SOPHOMORES

Ondas leads Class of '91

Finally we know our way around. Things click into place and start to make sense; and the things that don't, we learned to ignore. Freshman year was to experience, sophomore year is to use the knowledge of freshman year. Take for instance, passing time between classes. Freshman year we learned that the halls are like streets, you walk on the right side; and pity the freshman who

gets caught on the left. Just like cars when trying to turn, we had to be careful trying to get to our lockers.

We also acquired the knowledge of how to judge time, distance, and speed. One of the most well known question of freshman year was, "How are we supposed to get from Algebra in the junior high to English, on the other side of the school, and up a flight of stairs?!"

Now as sophomores we have the answer: Any way you can and as fast as you can! Luckily there are some understanding teachers who realize our crazy back and forth schedule.

As freshmen we had no right; upperclassmen could cut ahead of us in the lunchline, or give us a shove any time. Now it is different.

Looking beyond to Junior Year

Sophs

...and the seniors, and we all know how much they have to lose. nothing.

Being a junior is great. Just imagine, the after school bell has just run, the halls are full, and you walk up to the front of the auditorium to the junior benches. For the first time your not pelted with insults, or food. People talk to you, offer you a seat, it's a sophomores dream come true. So everyday you go there and have some fun, while your waiting for your bus. After a while your waiting for your bus. After a while you get bored by just talking to your friends, so you try something new. You pick on the freshman and sophomores that walk by. That's why being a junior is so great.

Advantages

A change for the better

Becoming a sophomore should be a change for the better. Shouldn't we be accepted?

Now that we are sophomores we are treated with about as much respect as the freshmen. However, being a sophomore has its advantages.

When we were freshmen, we were bullied, pushed around, teased, and generally made fun of.

If we can get another year we will have to endure a couple of years worth of frustration.

One good thing about being a sophomore is something called "one year seniority" which gives us a special privilege over the entire freshman class.

Class of '91— a metamorphosis

Sophs

Hallelujia! The long grueling freshman year is over for the class of 1991. They are now sophomores, which means they no longer have to duck around corners and hide behind teachers to avoid the upperclassmen.

One of the best aspects of sophomore year is that they are no longer labeled as "freshman", however, there are others. One other benefit is the arrival of their license for

many sophomores. After many years of pedalling their bikes, they are ready for something bigger and better.

It is true that sophomores are still underclassmen, they have moved up one more step. They are what one could term "the best of the worst". Sophomores are also able to do more in their school. For example, sophomores have the chance to play varsity sports. **Phil Chick**

Rhonda VanProoyen seems to enjoy the discussion in Health and Safety class. A junior, she now looks forward to senior year.

UNIONORS

SAT's demand Attention

For most people, attention is given to the inevitable by going to an early show, out to eat, or staying at home, to help ease the tension that taking the SAT's can bring. Senior Traci Fleck remembers her thoughts the night before she was to take the test, "All I could think was that it couldn't be avoided."

The next day comes despite all the prayers for a natural disaster to occur so the SAT's would be

over. At 6:00 a.m. on Saturday, the minds are churning—"Should I have studied more?" "Will I have enough time?"

After finding your assigned room and seat, the tedious directions begin. An endless dictation of which bubbles you fill in and when to fill them in.

Finally the test is passed out and the timer is started. The next few hours

are spent in a state of intense concentration. The only sound is the sound of the pen hitting the paper. "Time is up," is boomed across the room.

Everyone including the instructors lets out a huge sigh of relief.

After you go home and think about the test you realize it wasn't all that awful. All those horror stories you heard were just false paranoia. Even if you did horrible you can always take the SAT's over.

Entertainment scene draws Class of '90

When it comes to entertainment, the Class of '90 knows how to have fun. There are some of the biggest consumers when it comes to entertainment products.

Whether it's a Friday night dance or something bigger, such as Prom or Turnabout, there could be no high school social life without rocking and rolling, as well as slow dancing to the latest tunes.

Of course hearing them either live or on the best

of all the music in the world, there is a special feeling in the dance.

Many students have worked with sound equipment for dances. Pictured at the right, for example, are students who can enough to make the sound as good as possible. Shelley Hill and Mike Baron listen while Eric Rosenau, Scott Geyer, and Dan Fieldhouse set up equipment.

Juniors

Root

Some members of the Sight and Sound club such as Shelley Hill, Mike Baron, Eric Rosenau, Scott Geyer, and Dan Fieldhouse set up, while Missy Zandstra, Rick Whiting, and Ted Larson dance turnabout.

More than a place to be

When is a bench not a bench? When it's part of the social scene for many students.

Our school benches are more than rest stops for tired students. They are a gathering place. Students come together at these benches. There they feel free of care. They can laugh or cry or just be themselves, but only for five to six minutes between each class. During lunch the benches fill up before the cafeteria. However, only one select group is acceptable per bench set. On the benches by the lunchroom, catcalls are a favorite way to pass the time.

Kelly A. Kelderman

Root

Whether it's meeting friends, doing homework, or just sitting alone, the benches are a vital part of Highland.

Senior Year

A time to show
who the winners are

It comes once in a lifetime for most people, yet when it comes, there is a special feeling which can never again be captured.

Senior Year!

It's the climax of so many years of waiting and planning, the achievement of a goal which seemed almost impossible only four or five years before.

Yet, with a bit of motivation and energy, it does come.

To many senior year is simply a time to be "top dog" and enjoy the respect of the rest of the school. Teachers tend to presume on more maturity and give more responsibility, while underclassmen look up to sen-

iors for not only example, but for so many of the little things which others expect of leaders.

And for better or worse, senior year is a time to lead.

This year's leaders in the senior class were many. From the academic leaders to those who combined extra-curricular activities and leadership with good grades, there were many who showed others where success can lie. While Connie Sizemore led the band. Academic scholars were Bill Kepler, Derek Haas, Tony Gilles.

Preparing for her last walk out a classroom door, Lisa Solecki stays confident about the future, knowing she can handle it.

Mayer

Michele May and Dan Clark are ready to dance the night away. While Jennifer Morton and Shelly Adams perform for the last time as seniors.

BARON

S e n i o r s

Looking back on a good year

I consider senior year a time to look back on the past years of high school, but also a time to look ahead. I remember freshman year and how long it seemed until I became that coolest-of-all high schoolers: The Senior. High school to me then seemed like a vast expanse of time—an eternity even.

Over the next three years, I discovered the numerous clubs and activi-

ties available to me. I found that studying need not interfere with my education! So many new people to meet, so many to say good-bye to as they graduate before me.

Now, after the years of looking forward to that glorious day, it will be here at last. GRADUATION, the ticket to freedom and independence, burden of responsibility and adulthood. A whole unexplored world awaits

to be discovered, and it's my choice which path my life will take. The enormity and importance of these decisions is overwhelming, yet exciting at the same time. My life will be what I make of it—me ... alone ... taking full responsibility for my actions. Being a senior is certainly not as easy as it seems, but it is a time to explore and decide—a time to dream.

Baron

Moving On

The big day finally came when I had to catch the bus for my first day at high school. All that kept pressing in my mind was finding my way to the Auditorium on time for my first orientation. I look back on that day as if it were yesterday. Now I have reached the endpoint of my degree. It's different to become a senior and look back at those days and try to recall all those hours that have been put into school and where they have gone. Most of

the average high school students can't wait for the magic year to come, and when it does for many it's the happiest time. Being a senior may mean more responsibilities, more problems, more authority, and just plain lucky. But most important it stands for success and further planning and that is what the class of '89 will be looking to as we move on to the end of the line.

Zarndt, David Zatorski: Aide 4, Ski
Club 1-3, David Zych.

Fun Can Be formal or casual

Entertainment reaches for the super class of a formal dance, such as Turnabout, with Kurt Snearly escorting Jean McGee, to summer relaxation with Scott Wolendowski catching some muskies on vacation away from civilization off in the woods and river country.

Root

F rom each individual

A mosaic grows throughout the school

Any school is made of many individuals, and in the forefront of any group of students, the seniors stand out not only as leaders, but as those responsible for making many things happen in the school and in all the extra-curricular facets which make up the mosaic of Highland High School.

From showing the way at dances and social events, to leading the choir, band, and orchestra, seniors are also found taking leading roles in Speech and Debate as well as journalism and theatre.

Turnabout action shows Melissa Cherbak with her date, Jason Adams, and refreshments on the way for J. P. Miksis, getting a drink for her date, and Debi Boyll, dressed in pink.

As the photos on this page also show, every school takes on the colors, the sounds, and the feelings of all the individuals inside it. As seniors reach the high point of high school education, they become more forceful in setting the tone of the school, as well as setting the ideals which others may choose to live by.

As this school year went on, it was also the seniors who kept many things together. After last year's football season which wound up in the Hoosier Dome, there was a coming back to earth.

The combined choruses and orchestra met to make wonderful music at the annual Christmas concert, held in mid-December in Highland High School's Monbeck Auditorium.

Melanie Branson, sophomore, learns from seniors through example and writing in the Trojanal, which contains the writing of many upperclassmen.

Krysten Macek, Marsha Grabowski, and Jen Gilbert find time to share friendship as well as fun dancing at Turnabout festivities.

Margo Gembolis, a senior, works with Bob Tomaszewski and Jean Kasczka, applying physics lessons to a neat trick in the cafeteria.

Root

From many moods—A year

So June approaches ever steadily. The days dwindle down, as the old song says.

And with each day new memories come to mind—memories which seem to grow sweeter as time passes. The old classes, the old friends. The times you didn't know where to turn yet managed to muddle through.

And now it all makes sense, as the mosaic comes together.

Galich

Harris

While even Kermit had trouble dealing with the new phone system, the sublime moments of *Godspell* and the joy of royalty all made the year.

Root

Honors

Chris Granger, Derek Haas lead Class of 1989

Chris Granger
Valedictorian

Derek Haas
Salutatorian

While there are always different kinds of students in any high school, there is one fact that always emerges. The winners will rise to the top.

Leading this year's graduating class is Valedictorian Chris Granger, with another stellar member of the senior class, Salutatorian Derek Haas. Both achieved the top of their class academically while still finding time to participate in school activities and sports programs.

Other winners are members of the National Merit Semi-Finalist group. These include Bill Schocke, Derek Haas, Dan Fieldhouse, and Sue Ogrentz.

Many members of winning teams and groups were congratulated this year.

Mayer

Mayer

National Merit Scholars are Dan Fieldhouse and Susan Ogrentz, on the first row, and Bill Schocke and Derek Haas in the top row.

National Merit Commended Students receive praise from School Board President Lawrence Vassar at a November School Board meeting.

Robinson

Whether it's hard at work in a business class, rehearsing for a contest day in band class like Brad Kleinschmidt, or moving away from the classes to participate in the Homecoming Parade, what we learn is the heart of our high school experience.

Classes

Brain challenge

Our heads are on fire. The testing has begun. ISTEP, SAT, ASVAB, PSAT, ACT, and other funny initials haunt us, challenging our brains to live up to our teacher's and our own expectations. Most of this knowledge that gives us an edge to triumph over these funny little initials is cultured in class and out of our own ambition to learn. These are the tests you can't study for. They are the initials that reveal the success of education, the ambition and hunger for knowledge, and the result of taking advantage of class.

Next is only one more acronym:
REALITY.

Jeremy Harris

YES!

positive education

Teacher Feature

Imagine a green blackboard. Go ahead. Imagine it. And don't add anything else to it. Just a green blackboard.

Got it? Okay.

"Welcome to a teacherless Highland High, where students talk to blackboards and wonder why they're here!"

Since teachers are so common at Highland High, students can easily overlook their significance. The conversational lecture of Mr. Farley, the fire of Mrs. Poropat's spanish presentation, or perhaps the sudden burst of loud, ear catching words that Mr. Miller, Mr. Sunny or Mr. Fralinger might say definitely seasons up Highland High.

Without the bubbly Mrs. Petrin, elegant Mrs. Karr, or even the energy filled Mr. Martin, would Highland High be as entertaining and vivacious as a green blackboard?

Would learning be the same?

Ask a blackboard that.

Mrs. Becky Damasius, alone with a stack of papers, shows the lonely side of the profession all teachers must face.

Mayer

Acknowledging applause, Mr. Tim Watt has the extra responsibility of taking the band on trips and to various activities.

Speech

The classes for communicating

There is a silence. Twenty eyes stare at you, waiting for you to break the silence.

You've got thirty seconds in the spotlight. It seems like an hour.

You've got an hour. It seems like thirty seconds—and of that time you share the spotlight with others who perform improvised scenes from their imagination or improvised scenes for survival.

Speaking in front of a group was ranked one of the top fears, and runner up to the fear of death himself. Speech class starts with an introductory speech with a length of 30 to 60 seconds, and crescendoes to a full-length ten minute speech by the end of the semester. The fear diminishes with each minute added, the intensity of the fear moves further and further away from the intensity of the fear of death. Soon it will disappear altogether, right?

As a more internal sort of communication, drama centers on characterization and communicating personality as well as words. Character day (the day students portray a character for the full hour) needs special concentration,

integrity, and the skill of acting. Improvisation shows how the actor must think on his feet, for a sudden change may take place, as is the whole technique of freeze improvisations, freezing during a scene to let another person intrude and change the whole situation.

Eventually, the student characterizes a person in a play.

Jeremy Harris

Bob Brito checks his notes before continuing during the long ten minute speech, a class requirement.

Machnikowski

Machnikowski

Sure, there are friendly faces out there, and Jon Hilliard feels more confident as he launches into his speech.

Well, it's like this— Karin McDonald takes a deep breath and is soon speaking, following point by point of her speech.

Journalism

J students are the press

In a year which saw writers questioned in the case of Salman Rushdie's book,

SaTanic Verses, students continued to work in journalism.

With the Beginning J class concentrating on newspaper and print media, Trojanal moved to desktop publishing. The entire paper was produced to a camera ready status on Mac II computers and laser printers by the end of November.

As Shield students helped produce this yearbook, more and more work for this was also being done on the com-

puter. With Data Chief Krysten Schneider helping prepare templates, much of the copy was prepared on machine.

Chief photographers this year were Jessica Robinson and Mike Baron, with Andrea Perez and Ken Churilla in leading positions on the Trojanal.

While Jeremy Harris served as chairman of the Editorial Board in Shield, the three major editors for the book were Eli Galich, Angie Malkowski, and Kelly Kerr.

As students also worked on the literary magazine Mirage,

Major Shield editors Kelly Kerr, Eli Galich, and Angie Malkowski stop before plunging into another hectic spring deadline.

Jeremy Harris, editorial board chairman, and Production Manager Debi Boyll confer on coverage of the spring fair for the yearbook.

French visit highlights year

While all Foreign Language classes were filled with excitement and interesting experiences, this year was highlighted by two special events.

Foreign Language Week was again celebrated in December, with students experiencing a myriad of cultural events, films on customs and of course a tasty sampling of various ethnic foods. Spanish students broke a pinata, while all students learned Christmas carols and other interesting things about the country of the language they study.

The top event of the year, however, remains the visit

from 28 French students. Coming from their high school in a suburb of Paris, they visited Highland classes and were paired with Highland students who also welcomed them into their homes for two nights. The students and chaperones were the guests of Highland in a trip arranged by French teacher Mrs. Mary Certa. While the visitors toured all the classes, they spent most of their time viewing the computer assisted educational effort, such as the CAD drawing in drafting and desk top publishing in the Journalism Room.

From Spanish class to working on the computer, Dave Barabas helped show French students how computers are used in Highland education.

Mrs. Josefina Poropat brings her love of Spanish language and culture to her classes, which helps them learn much better.

Mayer

Robinson

Visiting a foreign language class, the French visitors listen to English being taught, but it's the foreign language they are studying.

Gathering to leave Highland at the end of their visit, French students and chaperones pose with Mrs. Mary Certa, who arranged the super visit.

Mayer

English

All the world's an English class

Why does anyone take English anyway? One very good answer may be that there's no way anyone can graduate without it, but many students actually enjoy English now and for good reason. Now there's more to English than just nouns and verbs there are computers! Students are being taken into the computer labs where they are taught basic skills that they can use to their advantage. Many use the computers to tackle essays, themes and even the dreaded term paper! Mrs. Amy Gleason heads the computer lab as the Computer Lab Aide.

Students also have a variety of English teachers before they leave Highland. Highland's English Department now consists of Mrs. Catherine Berg, Mr. Ken Darrow, Mrs. Betty Ivers, Mrs. Gloria Johnson, Mr. Douglas Justus, Mrs. Gloria Karr, Mr. Randall Lemon, Mrs. Judith Mussleman, Mrs. Joyce Petrin, Miss Debra Pullins and Mrs. Carolyn Slys. Mr. Michael Huber served as the English department's coordinator for the first semester and Mr. Bill Martin took over second semester. Most of these teachers teach all different levels and ages of students during the year.

Students study many different areas during the course of the year but there have been a few changes in the program. Juniors are now also required to do a small research paper in their English class. And of course there is the traditional senior term paper! There are other requirements to fill such as descriptive papers literature but most are created for fun and learning.

Shay DeReamer, like all Highland students, attends four years of English classes, and they all call for concentration and effort.

Shay DeReamer, like all Highland students, attends four years of English classes, and they all call for concentration and effort.

Computer lab mentor Mrs. Amy Gleason is available to help English students as they work on writing projects for class.

Holding up a visual aid as he teaches Transcendentalism, Mr. Ken Darrow gives his students greater knowledge of American Lit.

Kim Gerenda and Jennifer Venable take their English skills to the library, using the popular Reader's Guide for resources.

Science

Experiments lead to new understanding

H

ow does Science affect us? This question and more is answered in Sciences class-

es. From Biology to Chemistry, Science demands attention to facts and a mind capable of concentrating and respecting nature and human ways. Science offers students of all grades a challenge.

Luckily, Highland offers a variety of courses with great teachers.

General Science, taught by Mr. Chapman, Mrs. Johnson, and Mr. Richardson, teaches the broad study of all Sciences.

Mr. Chapman also teaches Earth Science, which covers a full study of the world's makeup.

Students can also choose Biology, taught by Mr. Mazur, Mr. Schmidt, Mrs. Konkoly, and Mr. Johnson. This course deals with the study of life. In Biology, students study various specimens and analyze their basic makeup.

Another enlightening experience in Biology is dissecting various animal specimens.

While some consider this an enjoyable learning experience, others just find this gross.

For the people interested in

challenges, there is Chemistry. Mr. Coudret and Mrs. Nowicki familiarize students with the dreaded Avagado's number.

Another part of Chemistry is experimenting with many chemicals which were previously unknown to many.

Another popular Science is Physics. Taught by Mr. Farley, Physics deals with the study of motion. This class is for students who have not been challenged enough.

Biology class takes the concentration of Jessica Robinson as she listens to Mr. Larry Johnson lecture on the latest science lesson.

No, not the creature from the Black Lagoon, but a friend and companion through the hours of biology experiments and discovery!

Math

Life Without Calculators

Q

6561?"

Answer: "Well, let me get the ol' Texas Instruments out." Another Question: "What is two plus two?" Answer: "Well, let me get the ol' Texas Instruments out."

Have we relied too much on our calculators? What would we do without them?

"Die," says junior John Samis. "There'd be no way I'd make it through that class (Physics)."

Physics, much like trigonometry, uses the sine and cosine buttons to the wear out stage.

Question: "What is 67.934876919 times the sine of 32 divided by the fourth root of

Calculus, the highest level of math offered at Highland, should be similar, right?

"I hadn't liked math until I started Calculus," says senior Scott Harvey. "It has a more abstract element."

Sure it does. Mrs. Leeney's students are forbidden to use calculators in her Calculus class. Just like Newton was in the 1600's.

In fact, all the calculations on a calculator can be done by hand and tables (sine, cosine, and tangent tables), except more tediously. Yet, even the two plus two calculations can find themselves solved more readily with calculators than with the 10 percent of the brain.

In fact, a calculator bereft society looks quite scary from the viewpoint of students as well as scientists. Computers calculate orbits, torque in bridges or otherwise, and even plot sociologic tendencies or population coagulations.

So what would happen if these calculators were mysteriously stolen from the earth by aliens searching for the fourth root of 6561?

Simone Betchen gets a further explanation from Miss Alice Hapin, though she is still one of the strongest students in the class.

On opposite page, bottom, Marco Gomez makes up a test he missed while ill, while Amy Polito concentrates on an assignment.

Machnikowski

Dalton

Jeff Bapst seems to enjoy the challenges of math class, even though the calculator is sometimes forbidden.

Advanced math just needs some concentration, according to Tanya Peterson, a senior who knows the value of working hard.

Dalton

Galich

Art

New eyes see a brighter world

While some students concentrate on things they may feel are practical, there will always be those who also find a need to participate in the creativity which helps make the human being complete.

Taught by Art Coordinator Miss Marge Bluhm, Mrs. Sally Fitch, and Mr. Ken Dowdy, the art classes range through a variety of media which students can work on as they develop not only their artistic skill, but their knowledge of

different techniques and expression as well.

With all their teachers artists, students can learn the techniques of drawing the faces and people, as well as the more expressive mediums of oil painting and block printing.

Students work all through the year on various projects, and while there are shows in the late winter and spring, the highlight of the year is the showing "Artists On The Court", where students fill the two school courtyards with their work in an all day show.

Kathy Ratkay and Shay Secviar concentrate on painting scenes and people of those dear to them, as does Cindy Halajesik on the opposite page.

Cindy Stanisz stops to consider the perspective in the piece of art which she submitted to the school literary magazine, *Mirage*.

Members of the Building Trades are: Lance Kline, Jim Grable, Jeff Humble, Lenny Jacobs, Mike Bedka, Todd Castro, Rick Homans, Mr. Duane Sieb, Dave Sweeko, Josh Wakefield, and Eric White.

Lenny Jacobs and Jeff Humble brave the fall weather as the house is in its first stages of framing and development.

Building

Building Trades works on largest house

At Highland, students have the opportunity to choose most of their courses which enables them to build a foundation for the career of their choice. One such class was made into a program for those who enjoy carpentry.

These are the Building Trades classes. For three hours a day a group of students go to an assigned lot in Highland and actually build a house during the course of the year under the supervision of the Building Trades teacher, Duane Sieb.

These classes are divided up into AM and PM classes, each contributing to the house a little each day.

These students travel to their building site on a daily basis to construct a house that will be a finished product at the end of the year. This year's classes consist of Mike Bedka, Mike Burczyk, Todd Castro, Jim Grabill, Rick Homans, Tim Ispas, Lenny Jacobs, Scott Jusko, John Kutcka, Lance Klien, Mike Morton, John Riffle, Larry Svitko, Dave Sweeko, Carey VanderNoord, Josh Wakefield, Russ Wegner and Eric White. For some of these students, this year's house will be the second house they have helped to build.

Many different sponsors help to make the project a success. They donate money for the lot and materials used in the construction. Many help temporarily furnish the house for the open house given after the completion. The house is turned over to some of the Home Ec classes to add the right interior touches. The house is then open to the public to be seen before an offer is made and the house is sold.

Highland has been very successful with this program.

Mayer

Home Ec

Egg babies highlight year

This year, fifteen Highland students had babies. Strangely enough, they all had them at the same time. The average infant was two inches long, had crayon like eyes, and rolled like a weeble wobble. And they were all eggs. Hard boiled eggs. "Congratulations,—you're all mothers!" notified "Dr." Damasius to her family living students one arbitrary Wednesday. They were each to give birth to a baby egg whose sex, weight, and health were determined by a piece of paper pulled out of a hat.

Then mom gave her baby a crayon face, possibly a pink bonnet (blue if it's a boy), a comfy

basket or carriage, and the adventure began.

But there were rules. Rules that the newborn itself made. "I am your new responsibility," said each newborn to mom. "I need your help." In face, each mother must protect her baby from strangers, keep him warm, bathe him, feed him, and give him a safe place to live and be taken care of so he won't get broken.

"I get tired of taken' care of the kids," complained Tami Dack, mother of twins, realizing two of the objectives quickly: responsibility and time involvement.

In essence, the experiment's purpose was to teach the love,

the responsibility, and pain and the dedication a mother would give to her own child. Most importantly, it taught that being a parent isn't a completely pretty picture. But there are rewards.

Mother strokes the hair of one child. He smiles. That's all you need.

Jeremy Harris

The famous egg babies were a hit this year, coming in all kinds of bunting and cribs. Some found life a bit easier than others, so says, Mrs. Damasius.

Tami Bach knows what it's like to make sure an egg baby is taken care of for the day, even while she's off doing other things on her schedule.

Robinson

Robinson

A Crayon Face!

The old days of Home Ec were merely cooking and sewing, but as times have moved ahead in other ways, the curriculum for home economics has vastly changed to accompany our rapidly changing times. Here at Highland home ec consists of classes that will be beneficial for future references.

Of course the traditional cooking and sewing are extremely helpful and are still taught. Advanced courses of cooking and sewing are also offered to expand beyond basic skills. In the sewing classes, students are taught to construct garments and get a basic foundation of sewing skills. Cooking classes offer opportunities to learn how to cook as well as to become creative. Advanced classes further into culture and even have fiestas. Senior Nicole Moulesong reports, "Foods was a fun and interesting learning experience."

Housing/Interior Design is also another home ec selection. It teaches the do's and don'ts of buying and renting homes. It also enlightens upon home furnishings and styles. Consumer Education is another choice available. It is sort of tied in with Housing in that it reports the rights and responsibilities of buying and renting.

Then there is Family Relations and Interpersonal Relations. Students always seem to enjoy class.

Planning an interior design in Housing class, Lorna Sepiol faces the possibility that space and finances may keep her ideas from getting to reality.

Annette Beebe, who competed on the national level, stops to answer a question about her entrepreneur skills involvement.

Below, Tracy Oprea works on keyboarding while David Zych and Erica Fenstermaker discuss new procedures in Accounting Class.

Mr. Jim Hill teaches his business law class, preparing students to understand what they'll need to know in the business world.

Mayer

Mayer

Mayer

Business

Today's skills build tomorrow

Mayer

As with many other areas in the curriculum, business education classes have changed much in the past few years.

Now students are taught not only on electronic typewriters, but they also learn to do much of the office work they learn on computers. From working on spread sheets to word processing, business students are also part of the new technological boom which has taken place in education.

Under the direction of Busi-

ness Coordinator Mrs. Barbara Lovin, the department has provided a varied range of skills and experiences to students, many of whom are now also boys. This is different from years ago, when the great majority of business education students were girls.

The entrepreneurship team of Annette Beebe, Kevin Scurlock and Kevin Sziovecz and Kevin Sziovecz as an entrepreneur individual then went on to compete at the national conference in Dallas, Texas.

Mrs. Karen Zendian works with her keyboarding class and Anthony and Maria DeRosa, while Artie Guerrero works on his own.

Mayer

Phys. Ed.

Getting in shape

Some students may find this hard to believe, but gym and the exercises done there are an important part of teenagers lives. As students, P.E. is not only great for you physically but mentally as well. Studies have shown that most teenagers who exercise in some way on a regular basis do well in school and have good all around attitudes.

At Highland, students are required to take P.E. as freshmen. Although only one year of gym is required, there is the option to take more. There are weightlifting, aerobics, and swimming classes available to boys and girls.

Luckily, teens today are realizing how important staying in shape can be. Mr. Onoff and Ms. Wilson also know that exercise is necessary for a healthy body.

They help and encourage students by teaching swimming, track, flag football, hockey, softball, and many other activities.

Mr. Urban keeps his weightlifters busy umping iron to build strong muscles. Of course there are those days when Mr. Urban feels basketball can be just as much fun as weightlifting.

Sitting in the semi-dark, students learn to listen to the teacher while watching material appear on an overhead projector screen.

Kaci Barnes and Kelly Kerr stop to confer with their student teacher in history class before starting their homework assignment.

Sophomore Carrie Houchin knows the value of keeping good notes. Sophomores often study world geography or world civilizations.

Mr. Mike Sunny, one of Highland High's absolutely finest teachers, makes his classes alive and interesting so students learn better.

Mayer

SOC. ST.

Join the class; learn the world

If the old soap opera "As The World Turns" were still around, it would have some interested viewers in Highland's Social Studies classes.

With Mr. Greg Petrin serving as Social Studies coordinator during the first semester, and Mr. Douglas Justus taking over during second semester, the social studies teachers made their classes interesting. As always, Mr. Mike Sunny could be heard challenging his students and giving them interesting anecdotes about the material they are studying. Mr. Petrin can be

seen using the overhead projector as he tries to help students understand the geography and culture of people history covers, and Mr. Miller can either be welcoming Mrs. Evan Bayh on the campaign trail or helping his students try to understand the ins and outs of neighboring Chicago politics.

Mr. Fralinger's classes study Psychology, trying to understand everything from human motivation to the reasons people act the way they do. There are interesting experiments,

Visiting from his native country, a Russian government student stops in to speak to Mr. Sunny's Government class during the spring.

Government

Political year gives experience

While all learning takes place in other areas besides books, this was that special kind of time when the study of government was anything but boring and abstract.

Under the direction of Highland High School government teachers, seniors had the chance not only to study the national, state, and local elections. In the case of Mr. Dan Miller's government class, students even had the opportunity to listen to the wife of gubernatorial candidate Evan Bayh, Susan Bayh, and give opinions on what they thought education needed in the State of Indiana.

With students working at the polls and actively campaigning for candidates, the election became a big issue in the fall. Some students like Mike Baron were even designated to sign up new voters in a voter registration drive, and as seniors continued their study of the House of Representatives, the Senate, the Supreme Court and the executive Branch, Michael Dukakis and George Bush were on the campaign trail.

Students witnessed an attack on Senator Dan Quayle, who nevertheless won the election with Mr. Bush and became the

country's vice-president.

While government did come to greater understanding through the test books, this year students also got additional government lessons on the television news and in the front pages of the newspaper.

Tami Czaja enjoys listening to the arguments between supporters of Bush and Quayle.

Visiting Mr. Miller's Government class, Susan Bayh talks to students.

Fashion This Year

trendy vs. classic

It seems like the music industry is continually influencing fashion. Boy George had people plastered with numbers, and Madonna had girls loading on the baubles and lace. For awhile, the way to get noticed was in neons, but that fad gave way to muted pastels. Geometric prints were the scene for awhile, and better yet were the animal prints.

Over the past few years, however, less is more. People began toning down things like that and wearing plaine clothes with elements with "fads" subtly

added.

Is the classic look a fad? No, but it's what the fashion world is leaning toward. They're saying basically, "It's ok to wear leopard print, but make it a scarf (1988's favorite accessory) and make sure you're not clashing." The two types of fashion, trendy and classic, aren't worlds apart. There can be a happy medium between **b u t t o n s** , numbers, zigzags and bright colors and cardigans, plaid, pearls, and loafers. That is what makes individual style.

Kelly Kerr

Vision

The Music Industry In A Nutshell

We are now on the edge of the 90's, and there can finally be a statement about the music of the 80's to separate it from that of the 50's, 60's, or the 70's.

Early in the decade, the punk movement was going on in England. The natural, flowing look of the 70's was gone. Taking its place was spiked hair, spiked bracelets, and spiked boots and the novel dances of the 60's (like the Twist or the Swim) gave way to slam dancing. After a few years, the punk rock calmed down, and many of the groups broke up. For example, Billy Idol

emerged from Generation X, and while keeping his definite punk image and trademark rebelliousness, he courted success for the years to come.

About the same time that people were learning "The Safety Dance" (Men Without Hats), a new craze was beginning in the streets of America: Breakdancing.

Once again music trends were influencing other trends in fashion and dancing. People were spinning on virtually every part of their bodies, wearing parachute pants, muscle shirts, and spikes (left over from days of the

Clash). A few years later, this new music was evolving. There were raps by the Fat Boys, then RUN DMC, and in the even later 80's, mixing by Salt-n-Pepa.

Meanwhile, music in Europe was steering clear of this new American Sound, and creating a sort of post-punk wave. Although U2 got its start in the late 70's and early 80's playing punk in bars in London and Dublin, they gained millions of fans in 1987 that were ignorant of their music until the Joshua Tree L.P. Bands like the Psychedelic Furs and Modern English got some recognition after their

music was played in American movies (which for some reason also had Molly Ringwald or a similar image and cloned theme to go along with the Soundtrack).

Classic Rock stood the ever-changing test of the 80's, and will probably carry its popularity over to the 90's. Led Zeppelin's members went their separate ways, but Pink Floyd's did not. What will be classic in the years to come? Journey had a lot of success in the 80's, but by about 1987 the only traces left of them were their oldies. Van Halen had scores of hits, but

their flashy lead, David Lee Roth, left them for a solo career. However, they retained a great sound while replacing him with Sammy Hagar.

There were strictly 80's character, too. Prince and the Revolution (and then just Prince) was a perfect example. Another style was Madonna. She made about as many movies as Prince, and dressed just as strangely. In 1987, a red headed girl named Tiffany remade virtually every song she could get away with, while Debbie Gibson was jumping into the scene.

Kelly Kerr

Highland's styles

1. New Wave	27%
2. Classic Rock	21%

FRESHMAN SOPHOMORE JUNIOR SENIOR

Robinson

Sophomore Cari Machnikowski takes time out to jam sometimes.

CARS We

DREAM

Of ...

So what's the big deal about having a nice car? To most teenagers, it's just about everything!

These days, cars make a statement, says junior Liza Guerrero. "My car says a lot about my personality."

One problem with the ideal, however, is that it's definitely hard to come by! Sporty models are costing more and more each year, and the insurance on them is somewhere near the national debt!

But what exactly is the ideal car?

Most teens picture a sporty car with a glossy paint job and a stereo system capable of being heard a block away!

Senior Renee Roderick states, "The looks of a car don't matter much to me, as long as it has a good radio!"

More importantly, many teens consider the power of a car and its speed. When asked what is considered fast, senior Chris Cash answers, "My Monte Carlo!"

On the other hand, Highland High School teacher Mr. Mike Sunny feels that there is no substitute for a Ferrari.

Heather Smith

A shiny, new BMW is every yuppie's dream ... and most prized possession. Some Highland students can only wish ...

Yes! This is actually Lia Guerrero's car. a Trans Am is high on many wish lists of many teenagers.

This classic Rolls Royce is in the process of being restored, as many appreciate its vintage beauty.

Galich

Galich

CARS We

Have...

...

... a little realistic!

"I would like to drive—and own—a fuchsia Jaguar when I am older. A '65 Mustang, a silver Nissan Maxima that talks, or a little red jeep would be cool, too."

—Erin Dalton

"My dream car is a yellow 1965 Mustang Convertible with white leather interior. As for now, I drive a sick, old Monte Carlo that I was forced to buy."

—Angie Malkowski

"If I were to win the lotto tomorrow, and decide to buy a car, I wouldn't know what to get—a Mercedes or a BMW. Now I have a tin box with wheels!"

—Eli Galich

"My dream car is definitely a white convertible that's very small, very fast, and very sleek. The car I drive now is a blue, 1989 Corsica."

—Sharon Korczyk

It has a relentless heater in the summer and an ice cold air conditioner in the winter. It seems nothing can stop this little monster because it is made of a new, space-age compound called Ferrous Oxide.

Rust.

These are not the cars we dream of. Well, maybe in a nightmare or two about being stranded in Southern Indiana or snowbound in the garage. We encounter them, but usually this is not the stuff dreams are made of.

Horizon. Citation. Pinto. They are our little faithful cars that reach point A—B with a few sputters, a growl, and maybe a cough or two. If well-kept, some may not even make much difference between themselves and a Rolls.

Maybe that's stretching it a bit, but nevertheless, some of the worst cars on the market today are the prettiest little ones on the road.

"It has neat seat belts that go Vrrrr when I open the door," says Scott Harvey, an expert on Ford Escorts. The car is an '88½ with a cockpit adorned with lights, but "not as many as I'd like," he says. Complete with its seat belts that go Vrrrr, it seems a nice way to get to point B.

Another Ferrous Oxide extravaganza is Ken Churilla's Monte Carlo. In fairness, it has a bit of rot above the back legs, but it is well-kept otherwise.

And occasionally the blower will go out and he'll have to chip ice off the inside of the window.

Jeremy Harris

THE DATING GAME ...

Things just aren't the same anymore

Sara is a normal teenager. She receives above average grades, is on the cheerleading squad, and is somewhat popular. She plays the field, dating different guys.

Samantha is another normal teenager. Like Sara, she receives above average grades, and is popular.

Sara is on the tennis team and does some acting on the side.

Samantha has been going out with Bob since eighth grade. She can't "legally" see other guys because of her status

(going out).

Sara and Samantha each have their similarities and definitely their differences. One thing that is not so evident, however, may be their biggest difference of all.

Sara is a 1960's stereo-type, and Samantha is the 1980's stereotypical.

The generation gap represented may be familiar. Some teen's parents can relate with Sara's life, while some teens can relate with Samantha's.

All teens have heard their parents' favorite line to add to any lecture,

"When I was your age ..."

But what was it like? Is it so much different from present times?

"Dating was very formal. You really knew your boyfriend/ girlfriend's family. The usual date was a movie, and then out somewhere to eat," says one veteran of that time. "The boys always paid. Couples usually walked wherever they were going. You never assumed you would just get the car. And you never kissed on the first date."

"At dances, the girls usually danced

all the fast dances, while the guys sat out or congregated in a corner. Then when a slow dance would come one, the group mixed together. "The general excitement is still the same," says a teacher. "Girls still talk about going out, as do the boys. One big difference is that you never swore in front of your boyfriend or girlfriend back then. You weren't considered respectable."

We've all become frustrated with parents at one time or another because they can't understand our "ways".

But when you have to remember their parents probably didn't understand them either, things start to level out.

Will there ever be a time when the dating "gap" will be bridged?

Some think no. Things will never change. There will always be some differences of opinion between the generations.

Maybe most people are right. Years can never be bridged—only the people who share the span of them.

Krysten Schneider

Senior Todd Castro is typically cutting loose and entertaining friends at the Christmas dance sponsored by Sight and Sound. Dances provide a change to hang out with the gang instead of a big date.

"My idea of the perfect date is going to the Glenwood Theater (she pays), and dinner down the street."

—Doug Vincent

"A perfect date for me means a night out at the beach with a fire and someone I really care about."

—Ken Churilla

"The best thing I can imagine for a perfect date would be going to a U2 concert with a really hot guy."

—Tonya Loscalzo

ENTERTAINING YOURSELF—

▲ Sophomores Amy Temple and Marc Wohadlo, and Amy Columbec and Dave Bedka swing out at Turnabout. While many people go to big dances with their boyfriend or girlfriend, others take a good friend instead. That way, anything goes.

► Juniors Eric Spain and Christie Jazayk have been dating on and off since junior high—proof that good relationships are based on strong friendships, no matter what.

"A great date would be just going out to dinner some place nice with someone I really care about."

—Traci Fozkos

"Dinner at an elegant restaurant and a professional play sounds like an absolutely great time to me."

—Scott Harvey

A freshman who wanted to remain anonymous said that her idea of a perfect date would be going anywhere with Bob Challman!

YOU ARE WHERE YOU EAT

So many places, so little time . . .

One question a person asks himself everyday is, "What should I eat?" A large amount of time is spent deciding what to do, should I stay home, or go out and get something?

After seemingly hours of searching, nothing is found at home. The refrigerator was opened five or six times in hope that something new might have appeared, because it didn't look good the first time. The final decision was to call a friend and go out somewhere. The next big question is, "Where?"

There are many places to go, it just depends on

Eating at home can be just as much fun as it is to dine out, as junior Kelly Kerr and her brother find out.

the type of food you are looking for. For the quick meal, there's the inexpensive Burger King, McDonald's Wendy's, and many others. There always seems to be something that sounds somewhat appetizing. Next, are the places of enjoyment, or just a place of relaxing atmosphere. A lot of people head on over to Al's Diner or even Ed Debevis (if they are prepared for a long drive) just to have a good time. Shakey's is also a place to have a lot of fun and have great pizza. Miner Dunn has a quieter surrounding, accompanied by a good meal. With the right company,

any of these places could hold one of your best evenings.

Every so often, someone is looking for a more sophisticated and dressier restaurant. These places are found all over the area. There is, of course, Red Lobster, Giovannis, The Olive Garden, and The Commander. I'm sure you have your own idea of what is good and what isn't, and there is a wide variety of choices, no matter what you looking for. One big influence is the amount of cash flow you have, some places cost a lot.

Jean McGee

"One great place to eat is definitely Burger King. It's especially cool to go there when they are having their famous 99¢ special cheeseburgers!"

—George Schwandt

"The Yellow Ribbon in South Holland is a great place to kick back and relax after a game, or just to hang out with your friends."

—Dave Opperman

"We like to hang out at Bennigan's with our friends because we like the aura of the salad bar. Also, it's always wild to be there."

—Tom Marszalek, Kevin Ochman

Jim Krager, Doug Vincent, and Bob Waldron like to go to the New Moon Restaurant for Chinese, "... because it's free and we like the cat soup."

—DINING OUT IN THE 80'S

Montesong

Fast Food

It used to be that dining out was an occasional thing to do. Now, it's an everyday custom. Most of our generation lives on fast food. It's quick, convenient, and most of all, habit!

Burger King and McDonalds are always hot spots after a game, so it has become apparent that these places aren't only for getting a quick dinner, but places to be social.

Many people argue that fast food

isn't nutritious. Others say it's too expensive. However, fast food restaurants are booming! As long as there is a craving out there for a Big Mac, there will always be a McDonalds. Likewise, as long as there is a Wendy's, there will always be a customer.

In these modern times, the fast foods we eat are no longer just a treat. They have become an addiction.

Heather Smith

Seniors Shawn George and Andy Polen know that a batter fight at home is better than fast food any day (and more creative):

"I like eating at Gino's East. They have great Pizza. Besides, eating there is a great excuse to go up to Chicago." (Also in Chicago is Ed's.)

—Amy Golumbeck

Some people can stay at home and appreciate good food. English teacher, **Mrs. Karr** says, "I like any food that has been cooked for me by someone else!"

"When I am in the mood for a snack that's out of the norm. I like to go to Baskin Robbins to cool out with their thirty one flavors!"

—Shelley Hill

"50's, 60's, and 70's McDonalds in Chicago is the greatest place to stop and have a burger and look around. Especially after a Hawks game!"

—Jean Kaczka

individuality

Jocks, preps, punks, burnouts, and nerds. These are just a few of the groups that teens may be categorized in. Unfortunately, everyone is placed in a pigeon hole by either themselves or their peers. Social cliques, however, are not all bad. They give some people a sense of belonging to a group, and some of us really need that.

When someone is in a group, it is sometimes hard for them to keep his own separate identity. No matter how one really is on the inside, he is inevitably looked on as the rest are in the group. People today are labeled;

they are often judged before someone gets to know the true person. There are a lot of really great and interesting people out there in the world, and it should not matter what group of people they belong to; what counts is the individual.

Junior Anthony DeRosa finds individuality to be "...able to be different and a little weird." "I think it is all about being able to work independently and not have to depend on others," says junior Caroline Alexander.

Our individuality is a very important thing to have. With-

out our many diverse qualities, we would have many clones of the same people running around like robots. Many people who know the meaning of individuality act confident and let the world know how they feel. Junior Megan Dagley comments, "Individuality is knowing who you are, and letting the rest of the world know it, too."

Laid-back senior, Debi Boyl is spotted here acting really psycho! She was a star of "Godspell" in the fall.

Harris

A STYLE ALL YOUR OWN

Root

Robinson

Highland athletes know that being on a team always leaves room for individuality as well.

Junior Heidi Steinman laughs when asked about individuality.

Dancing is a good way of showing one's individuality, as shown above.

Letting Off Steam

LET GO!

No matter who you are, or what your interests are, or where you come from, it is almost certain that at some time in your life, you will get stressed out. Of course, some people seek fun for the sake of fun, but this is the way that many people deal with pressures.

Unfortunately, some people tend to forget about their problems by drinking, or even doing drugs. It is also unfortunate that many adults tend to automatically think that a teenager's idea

of a good time always involves illegal activities. This, however, is not always true. Having fun entails a lot of aspects, and most of them are good for us rather than illegal or wrong.

Some people let off steam by playing athletics. Competition, to them, is the best kind of fun. It makes them feel good about themselves, and when a winning team gets caught up in a lot of hoopla, everyone starts to have a great time.

Other people just love being with their friends and hanging out. These activities include going to parties, going out to eat or dancing, or trips to the city.

Sometimes just talking to a good friend for a few minutes can provide a temporary escape from a bad problem or mood.

There are a lot of school clubs that can be fun, too. A lot of Highland students are involved in the theater company and or aud. staff. This group is made up of people who love to express themselves through the art of drama. Speaking of art, many people have a good time in the school band.

Every once in a while, the entire school has one big event instead of one game, or play, or concert.

Kelly Kerr

Something

Extra

from the editor . . .

Well, this is it . . . the last of the 80's. Although we were all born in the early 70's, it was this decade that we did most of our "growing up" in. I say most because throughout our lives, we will continue growing. The day we stop will obviously be the day we die.

In the last few years, there has been a revival of the ideas from the 60's. The clothes, music, and basic ideals have reappeared. That is ironic, because those were times that our parents were growing up! It is now that we suffer the consequences of the sexual revolution, and suffer

the sorrows of the Vietnam War.

It seems like the 80's were a time that the world basked in its modern state. The world claimed to be a much better place because of the new technology and new ideas. I just hope that the choices we have made for our lifestyles are going to prove to be wise ones in the years to come.

On a less pensive note, the mini-mag was supposed to be a separate part of the Shield this year. It is a closer look at Highland, rather than the world at large.

Kelly Kerr

Senior Dan Clark can always take time out to make a big splash, and enjoy the summer.

Senior Angie Malkowski and Junior Jason Hugs climb to new heights at the Field Museum.

Senior girls are really good at having an excellent time. This was on New Year's Eve.

Club teaser

Let them know
how good you are

What would high school be without clubs? Without clubs, school would be all work and no fun. Also, the Homecoming Parade would be quite short!

Clubs give students a chance to meet new friends and take part in school spirit. The involvement of both students and club sponsors provide memories that will last a life time. Many clubs offer students that chance to take field trips and visit new and interesting places.

Let's not forget possibly the largest club of all, the Student Council. They are the ones responsible for planning spirit

week, and several other school activities.

Another large club is Highland's Theater Company. The theater company gives people the chance to get away from their problems and enjoy a play. It also gives them the chance to act on a stage. Something everyone should try.

Another club at Highland is the Academic Decathlon Team. The team competes against twenty schools at Purdue Lafayette in various academic categories.

John Freyek and Georgia Domsich learn that new friendships come when there is involvement in an activity that people can share and care about.

Mayer

Harris

Mayer

Aaron Straker finds the Art Honor's idea of posters not only helps them, but gives him a chance to redecorate a wall at a reasonable price.

Working in the Aud. gives Debi Boyll and David Zych a lot of hard work.

Clubs

Choose your weapons

A club is definitely something you beat someone with. It's not caveman like, nor savage, nor viscious in any way. It has an edge to cut with, yet it cleaves only difficulties.

A club is definitely something you beat someone with. It is definitely the edge a college is looking for, and it is definitely an edge a personality is looking for. Clubs can cure senioritis (as one pamphlet said), educate its members (like Academic Decathlon), teach them responsibility (such as Student Council), bring them to new understanding (Language clubs), teach others (National Honor Society), entertain (Highland Theatre Company), or simply cause fun (all of them).

Choose your weapon, and enjoy!

Jeremy Harris

Root

Root

The winter play "House of Blue Leaves" became a vehicle to show excellent acting in the comedic vein, as shown by David Zych, Jennifer Tryon, and Leigh Lawrence, who are pictured here in scenes from the play which was directed by Jeremy Harris.

A Spring Festival does well Fool's Affair

This year's spring festival was arranged by student council members and Miss Debra Pullins. The spring fest was called A Fool's Affair and was logically held on April 1 inside the Highland High School new gym.

The festival was a success with many booths. In order to obtain a booth, different groups and clubs paid a \$25 rental fee. The booth was then theirs to set up with games and displays. Some booths consisted of hats that could be designed and painted on an several food booths. There wer also games of all sorts and prizes to accompany them.

Some who went were also

thrown into jail. Friends sent friends to jail for fun. These people could either wait their sentence out or pay a small fee to escape. All convicts eventually escaped!

The fest continued into the afternoon and more and more students arrived as the day progressed. Student council members were pleased and

their hours of hard work paid off.

Heather Smith

Bill Schocke and Jim Inveltd handle the business in the shooting gallery as customers reach for their wallets.

"Come on. Take a chance" is the message of junior Deanna Finke and sophomore Zeana Isa as they work their booth.

Karen Ondas, Jill Bartlett and Wende Sudlak greet parents and children, above, while Jenny Gray tries her hand at bowling.

Scott Carnes fills the roll of Balloon Man happily, working the game run by Renee Longhi and Jessica Robinson, both sophs.

T HTC forms tight bonds in quality productions heatre Company shines

Highland Theatre Company once again proved that dreams can come true. Opening their 88/89 season with the musical **GODSPELL**, the cast and crew received standing ovations for their talent and effort. With the change from fall to winter, the company also changed from lively musicals to hilarious tragedies. **HOUSE OF BLUE LEAVES** shone a blue light on life and society's views in general. With spring came the production of **GIGI**. A cast of both old and new set the standards for years to come.

Theatre Company and Auditorium Staff form a tight bond of people that strive toward one goal; to produce

great shows and have fun along the way. Hundreds of hours are spent rehearsing under bright lights and putting on finishing touches. Members can often be seen eating dinner, doing homework, and even sleeping in their new-found home.

Key people this season were Jeremy Harris, president; Mari Harris, vice president; Debi Boyll, secretary; Larry Breckner, director; and Craig Deets, music coordinator. The people who coordinate things behind the scenes were: Rick Harvey, technical director; Christine Easto, production manager; John Samis, lighting director; Kim Harding, sound

director; and Amy Cartwright, house manager.

As the year wound down, so did the stage. Graduation would mean the end of an era and the beginning of a new one; for no two years are alike. Feelings were hurt and fingers were bruised, but everything was worth it. It was a season to remember.

As the storyline unfolded, the ability of the cast came alive. By the end of the show, the audience didn't know whether to laugh or cry.

W Harris directs Zych, Tryon in 'Blue Leaves' Farce.

Winter Farce

Once again following the theatre company tradition, H.T.C. produced a winter play completely directed, performed, and staged by students. The House of Blue Leaves, a hilarious tragedy, was directed by Jeremy Harris and assistant directed by Pattie Hanyzewski. Every element that went into making the show a success was the result of long hours of hard work by all involved.

The show centers around

Bananas (Tryon) admires the fine eyebrows of Billy (McCarthy) while reminiscing over old times in the apartment in New York.

Artie Shaughnessy (Dave Zych), a struggling zookeeper who dreams of breaking into show business. His dream is shared by the flamboyant Bunny, Flingus (Leigh Lawrence), Artie's girlfriend from the apartment downstairs. The one problem standing in their way of material bliss and Hollywood stardom is Bananas (Jennifer Tryon)—Artie's crazy wife.

The plot thickens as the arrival of the Pope is announced. Enter Ronnie, Artie's son who has gone AWOL in order to become famous by blowing up the Pope. Also try-

ing to get closer to the Pope are the beer-drinking nuns who seek refuge in Artie's home - only adding to the chaos. The nuns were portrayed by Dawn Fanning, Theresa Karin, and Lisa Abraham.

There seems to be a light at the end of the tunnel for Artie when his Hollywood producer friend Billy (Sean McCarthy) shows up to mourn the death of his girlfriend Corrina (Kim Harding). Artie tries to push his songs off on Billy, but instead Billy steals Bunny away from him.

"The day the Pope came to New York". Ronnie (Loane) explains his plan to achieve fame by blowing up the Pope.

The lights begin to dim as Artie (Zych) takes out his utter despair of life's hardships by strangling his beloved wife.

S Choral Department ing a song

T

he beginning of the 1988-89 school year brought with it many significant

changes in the music department at Highland. The new department coordinator Mr. Tim Watt hired Mr. Craig Deets to take over the choral aspect of the department.

The mixed choir is comprised of around forty students from freshmen to seniors who work together with the Girls' Choir to produce a variety of concerts. Mr. Deets used this year to introduce the choral students to musical literature from several different time periods.

Another division of the department is the Swing Choir. This group participates in the concerts and also had the opportunity to perform at Swing Mr. Craig Deets works with mixed choir in class prior to the spring concert, which was held in late May.

Choir ISSMA to receive an excellent rating by the judges this year. The Swing Choir concentrates on pop music and choreography. Long after-school rehearsals and hard work are necessary to produce just the right effect in concerts.

An important event on the choral calendar occurred in late January with the ISSMA district solo and ensemble contest. Students prepared music to be entered in divisions according to the difficulty of the piece. A judge then listens to the piece and rates it in consideration of many factors such as stage presence, intonation, and general musicianship. A first place rating in Division I of District competition qualifies the student to compete in State competition.

Baron

Deets joins staff

Joining the ranks of the Highland Music Department this year is Mr. Craig Deets. A native of rural Illinois, Mr. Deets grew up in the town of Polo. He attended Polo Community High School and graduated in 1980. After graduation, Mr. Deets attended Drake University majoring in church music. Later he transferred to Southern Illinois University and graduated with a Bachelor's Degree in Music Education. After receiving his Bachelor's, Mr. Deets attended the University of Illinois and earned his Master's Degree in choral music.

Mr. Deets used his knowledge of many instruments to teach elementary band in Sauk Village, IL last year. He then accepted the opening at Highland as the choral director.

Mr. Deets is very optimistic about the future of the Highland choirs. He has many goals for the program both short and long term. His short-term goals include unifying the choirs.

Debi Boyll

Orchestra Dedication

Not only did this year's orchestra produce many fine concerts, but fine students as well. They meet as a class every day for the entire year to practice and perfect. Hours and hours are put into learning music and making it sound great.

The students, lead by Karen Schaffer, not only learn how to play the music, but how to appreciate it as well. Heidi Steinman and Jim McNabney are two examples of just how dedicated these members are. They were named to the Indiana All State Honors Orchestra which was featured at the Indiana Music Educators Convention held in

Orchestra Officers: Carissa Troppman, secretary, Kelly LaFlech, treasurer, Jim McNabney, vice-president, Heidi Steinman, president.

Indianapolis. Heidi plays violin and is also concertmistress of the orchestra. Jim plays bass and has been a participant in the Northwest Indiana Youth Orchestra for four years.

The group, along with the band and choir, performed in a Christmas concert earlier this year. There, Miss Schaffer was introduced as the new Orchestra teacher. She received a warm welcome complete with flowers and hugs.

Club officers are Heidi Steinman, Jim McNabney, Kelly LaFlech, and Carissa Troppman.

Marching on the field before every home game, the band members proved that competition and discipline pay off in music as well as sports.

Practicing long hours with the marching band, drum major Connie Sizemore helped lead the Trojans.

Performing at half-time in Soldier field, the Majorettes entertained the Chicago Bears home crowd and brought more honor to Highland High School.

Standing at attention even in class, Mike Kusbel works on the concentration and form which help make any band a winning one in its category.

T Band wins Labor Day Parade, Plays at Soldiers Field, Disney World rojan Pride

Ambition was a common thread holding the Highland Marching Pride together this year, even when they fought the one hundred degree heat at Bank Camp in August. I

The year began at Bank Camp, taking place at Ball State University., and then taking part in Chicago's Labor Day parade. The band won first place, which qualified them to perform at the Bears game in December.

Other highlights include the performance at Franklin Park. The band left with such

Showing up to add to Spirit Week festivities, band members not only show their school spirit, but their musicianship as well.

awards as first in their class and best Drum major, awarded to Connie Dizemore.

One major change in the band's activities was the addition of the Majorettes to the color guard. This provided a feature of dance, flag, an even solo performances by certain members.

All in all the band had a very successful year. Sandy Kusbel, flag captain, expresses her feelings about '88, "I think the band had come a long way. We've progressed from being individuals to the point where we perform and behave."

The 1988-1989 Marching Pride took many honors for its musicianship, its marching ability, and for the way it always did Highland proud.

Understanding is the key Foreign languages

A foreign language club? Who would want to participate in a club based on a class? Well, the truth is, foreign language clubs do a lot and have fun in the process. Everything from going to museums, to conventions, to pizza parties right here in Highland!

Spanish Club had a great year for fundraising—profiting nearly \$2,000! They also took their annual trip to Chicago for the “Christmas Around the World” exhibit at the Museum of Science and Industry. Officers are President Maria DeRosa, Vice President Athena Rivera, Secretary Ann Marie Whiting, Treasurer Deanna Finke, and sponsor Mrs. Josefin Poropat.

French Club has completed an exciting as well as rewarding year filled with many activities. The club

The German department started out with a new teacher and sponsor Mr. Ben Jacquess. The club’s activities included making cheese-covered pretzels, taking a trip to Chicago, and attending conventions. Members attended the German State Convention in Bloomington, as well as conventions in Michigan City. The officers are President Greg Maravilla, Vice President Matt Delegat, Treasurer Brian Poi, and Secretary Russel Ceperich.

went horseback riding, attended cultural dinners, and viewed the musical *Les Miserables*. A memora-

ble and educational experience for the members was the chance to host French students in their homes for two days. Officers include Heidi Steinman, President; Charissa Oostman, Vice President; Dana Ciszar, Treasurer; Andrea Summers, Secretary; and Mrs. Mary Certa, sponsor.

Foreign language clubs can truly be beneficial besides being fun. German Club member Phil Chick says, “It’s good to learn a foreign language and it’s even better to be in a foreign language club . . . it’s a lot of fun!”

N Tutoring, drives help school ational Honor

One of the premier groups in any high school is the National Honor Society.

At Highland High this is no exception.

Under the sponsorship of Mrs. Judy Musselman, the National Honor Society members participate in a variety of activities.

For the second year in a row, members of NHS have been active in tutoring. Sessions are set up in the school library after school, especially during test week before semester exams. Members of the society are available to offer help in any class in the

curriculum, and students are free to go in and ask for assistance in any field of study.

As they have always done, NHS members are also active in raising the consciousness of students. Before Thanksgiving they hold a food drive. Students are encouraged to bring in food stuffs which are then distributed to needy families in Highland and the greater Hammond area.

A similar drive is held before Christmas, when not only

Vice-president Stacey Mustard stops to show off one of the toys collected for the Christmas drive before wrapping it for delivery.

food, but small toys and gifts as well are collected for needy families. This not only gives help to those who need it; it also helps Highland students realize there is an importance to sharing what any individual has.

This year's officers are Ted Loehrke as President; Stacey Mustard, vice-president; Dan Clark, secretary; and Greg Maravilla as treasurer.

Only students with high academic records and service to the school are eligible for acceptance into the National Honor Society.

After checking the National Honor Society bulletin board, Greg Maravilla knows the group's activities are in good order.

Three qualify nationally

Business Professionals

While some students learn in class and never both- er to try using their knowledge beyond that class, there are others who take their skills and further them.

One such group is the Busi- ness Professionals of America, who sharpen their skills and then compete on a regional level, hoping to be chosen to advance to national ranking.

This year, under the spon- sorship and help of sponsor Mrs. Rose Bright, the BPE of Highland did very well. Twenty students competed in the District 1 Leadership Confer- ence at Hammond High and the Hammond Area Career Center.

Jevub Scurlock, Annette

Business Professionals qualifiers for national competition are Kevin Szirovecz, Kevin Scurlock, and Annette Beebe.

Beebe, Kevin Szirovecz, Tracy Oprea, Dari Klapkowski, Jen- nifer Bukovac all qualified for state competition. Others who participated were Jennifer Haake, Debbie Orrick, Chris- tine August, and Kim Sztot.

Working in such categories as Entrepreneur, Shorthand Transcription, Administrative Assistant I & II, and Informa- tion Processing I & II, all did well. There were also competi- tions in the fields of Finance and Employment Skills.

Coming away from state competition and a trip to the finals were Kevin Scurlock, Annette Beebe and Kevin Szirovecz as an Entrepreneur Team, and Kevin Szirovecz qualifying as an Entrepreneur.

BPA officers are Debbie Orrick, Jen- nifer Bukovac, Laura Townsend, Kim Sztot, and Lisa Park. Debbie is the president.

SADD

Snowflake grows from Snowball

Although the year ran a bit roughly, Highland's chapter of Students Against Driving Drunk managed to make an important statement.

While it helped students understand all year that drinking and driving are dangerous, SADD also sponsored a Snowflake for junior high students. This grew out of the Operation Snowball which many SADD students attended.

Amy Cartwright, pictured below, joins her fellow SADD members to plan the Snowflake which was run for junior high students.

A

Students compete in arenas Academic Decathlon

Some of the most ambitious athletes in the school are not in sports at all. They are members of Highland High's Academic Decathlon team.

Formed only a few years ago, the Academic Decathlon is a national organization which encourages high school students to compete in their knowledge of many aspects of the school curriculum. They must also be able to successfully

complete an interview, and preparation for their competition is intense.

Highland's Academic Decathlon team was sponsored this year by Mrs. Gloria Karr and Mr. David Young. Competing on the Honor level were seniors Michelle Abraham, Derek Haas, and Greg Maravilla.

Seniors Jeremy Harris and

Scott Harvey joined junior Lisa Abraham to compete on the Scholastic level, while the varsity contestants were senior Eric Rosenau and juniors Marty Denkhoff and Shelly Hill.

While students work for the first semester to prepare for competition, they do much research and study. They also practice speaking, and encourage each other.

Finally the day arrives when the area decathlon is held at Purdue Calumet. In all day tests which culminate in a Super Bowl Quiz, students vie for honors with teens from other area high schools.

This year Eric Rosenau won a gold medal in Fine Arts, and Derek Haas took a silver in Interview, with Greg taking a silver in Economics.

Working to polish his skills, Jeremy Harris first gets into his best speaking mode, then speaks for his fellow students.

Honored by the Highland Board of School Trustees, members of the decathlon team receive congratulations from Mr. Vassar.

A sales successful rt Honor

Mayer

Helping sell posters at the Art Honor society sale are Zena Isa and Lori Gilchrist.

Highland's own version of jaws is from an art student.

Drawn from the most talented art students, members of the National Art Honors Society, have two main projects during the year.

The first project is during the Christmas season. The students make their own seasonal cards. Silk screening and many other various materials are used. They then sell them. Each card is an original.

In the spring, the art students start their second project of selling art posters. Not only do they sell posters of Michael Jordan, but a variety of classics such as Van Gogh, Picasso, Mondrian, Monet and much more student quality art.

The art honor students also get a chance to have their work featured in an all-day project called, "ARTISTS ON THE COURT."

The National Art Honor Society is sponsored by Miss Marge Bluhm.

Mr. David Young was one of the Decathlon sponsors this year.

Marching in the Homecoming Parade, Art Honor shines.

Serving the school Student Council

Student Council is one of those groups in the school which touches every aspect of Highland life. With a strong sponsor this year in Miss Debbie Pullins, assisted by Mrs. Carolyn Slys, it has become one of the strongest groups in the school.

Its aim is making a positive difference in the high school, and many different activities make that happen for Student Council. There is the annual blood drive, which still draws large numbers of faculty and students to participate.

A drive for needy families at Christmas is also part of the Student Council effort, and they sponsor the annual Spring Fair, which this year was called "A Fool's Affair", since it took place on April 1.

Student Council meets almost every week of the year,

and while there is a convention to save for in the summer and council business to attend, the emphasis is always on making Highland a more exciting and positive place to be.

Miss Debra Pullins is responsible for much of the Council's caring and activity throughout the school year.

Dalton

Harris

Baron

It's not the speech Speech It's the people

It's five o'clock in the morning. The sun hasn't even bothered to get up. But there is a relentless scream coming from an alarm clock that refuses to be put on snooze.

And the speech team member arises.

So, why would anyone who has half of a brain wake up on a Saturday, miss Pee Wee's Playhouse, and give a speech about dogs or something? Is it because of President Pat Krull's "Oomph" Speech before each meet?

"The term 'speech' is actual-

Mr. Bill Martin coaches Simone Betchen, who qualified in state because of extemporaneous content and organization.

ly a misnomer," says Scott Geyer, "in that very few of the many events that are offered encompass a technical 'speech' per se."

In fact, the "speech" in "Speech and Debate" doesn't refer to "speech" at all. Duo, for one, involves two people acting out a piece of script, be it humorous, dramatic, or otherwise, with all the nuances and gestures an actor would use.

Other events that require a more "acting" than a "speaking" are Drama and Humorous Interpretation. The competitor acts out a ten minute scene playing all the characters involved (in Humorous it could get quite wild). Likewise, Prose (also read) involves this type of interpretation, but is more narrative than demonstrative.

The new speech coaches, Mr. and Mrs. Thorp, find the "interp" events their specialty. Speech competitors would be coached at the Thorp's house, complete with an analysis from and encouragement by

the two baby twins, Ryan and Kevin.

It seemed to work. For the first time in many years, competitors finally reached final round (the round in which all other competitors are eliminated and the finalists compete) at the District Tourney. Leigh Lawrence with a fourth, and Jeremy Harris with a sixth, both were in the determining round of Dramatic Interp.

Other "interpers" found themselves with ribbons at individual meets, and a chance to go to Regionals. Emily Stern, John Samis, Pat Krull, Scott Loane, Christine Borman, Scott Harvey, Scott Geyer, Sean McCarthy, and Pattie Hanazewski are some of these interpers.

On a tangent from this, highland might find Sean McCarthy or Pat Krull delivering an Original Oratory entirely written by themselves (either beforehand or actually during the performance); or Deanna Vega, Christine Borman, and Bill Schocke anchoring radio.

There to help Club Corner

After school activities are meant to be fun, however, there are some whose purpose is not only to supply enjoyment, but to offer experience as well. These clubs help out the school and community in the process of learning.

The mentor program is an extracurricular activity that gives students a chance to get hands-on experience in their choice of career field. They, along with business professionals in the community, make an agreement to meet once or twice a week for "training sessions". This way, the student not only learns in school, but out of school as well.

Key Club also works within the community. They work together with the Kiwanas to provide the town with a sense of pride. For Halloween, the students visited the children at the Community Hospital in hope of

raising their spirits. The club also provides graduating seniors with needed scholarships.

In the Journalism class, young journalists learn how to communicate with the public through their writings and pictures. They also learn how a design can influence a reader. Many go on to become staff members of the school newspaper or yearbook. Some even have the honor of being named to the Quill and Scroll Honor Society. By maintaining a 'B' average and showing outstanding work in any one of the many fields of journalism, one becomes a candidate.

Sight and Sound also works with the Journalism students in order to produce the video yearbook. They travel to games, dances, and pep rallies to capture the spirit of Highland High on film.

Sports

Is it the glory or the challenge?

The thrill or the competition?

What pushes an athlete to strive for perfection?

Sports have always been as much as a tradition here at Highland as academics. With the long line of success stories here, it is easy to get pulled into. No matter if the game is here or a million miles away, if the stands are packed or if they are bare, the Blue and Gold always installs a pride. So as these young men and women take their place whether it be on the court, in the water, or on the line, the pride is there. The pride to push themselves to victory. The determination to push til they can push no more.

The determination to win.

The thrill to taste the victory, and smell the competition. To be coached to perfection and perform like a machine. To represent their home and school with pride and dignity. To win. Sports at Highland bring the adult out of an athlete as we are trained to compete with friendship. To win like winners and to always strive for perfection. We are taught to set high goals and strive for them. We are taught the true meaning of competition.

Separating the Men From The Boys

Root

Executing a perfect defensive tackle is senior Greg Mazur, at a great game against Calumet.

No other sport involves such intense endurance and dedication like football. Practices are grueling. Athletes condition themselves all year round just to compete for two and a half months. It all begins in August when practices are scheduled once a day in the morning. After a few weeks of light practice which includes running, calastenics, and weight lifting it's time to separate the men from the boys.

Practices are twice a day in every type of weather, whether it be 100 degrees or a terential rainstorm one can see the team digging in. The players practice in full uniform. Not just tackling dummies but running miles and sprints and performing numerous drills like stations, three man roll, and crabbing. The number of team members drops slight-

ly. The players feel if you make it through two a days you can meet any opponent with confidence. Senior Chris Ferko believes, "It gets everyone ready for a long and rough season."

Many of the team work out everyday to improve their strength and speed. In the off season some join other sports to stay in shape. Senior Joe Munoz is a shot and discus thrower for the track team. He does this to strengthen his arms and legs, the key factors for playing good defense.

This years Trojans finished the year with a record of 3-5. Highland won Homecoming and a great game against Lowell. While losing to Portage and Munster.

Angie Malkowski

Sophomore Brian Guzek gives it his all by breaking a tackle for a few extra yards.

~~~~~ "We Hit The Ball You Hit The Road!"

Baron

Baron

~~~~~ Seniors Chris Granger and Jason Olah look on at their opponents warming up on the court.

~~~~~ Senior Chris Granger putting forth yet another tremendous effort for the Highland tennis team.

"We hit the ball, you hit the road!" was the motto adopted by the 1988 Boys' Tennis team. The statement of confidence proved fitting for the team who finished with a 19-2 record.

The team was led this year by #1 singles player, senior Amit Bajaj, #2 singles, senior Chris Granger, #3 singles, senior Jason Olah, #1 doubles, Seniors Mike Edwards and Derek Haas, and #2 doubles, senior Scott Cairns and junior Jeff Collet.

Tremendous fan support and skillful coaching by Mr. Jerry Mazur helped push the team on to what has been referred to as a "dream season." Many team goals were accomplished including winning the title of Conference champions, a title which has not been held by Highland since 1979. Other goals which were realized by the victorious team were capturing the Regional title and

advancing on to Semi-state. Although the team suffered a heartbreaking loss to Culver Military Academy in the first round of Semi-state competition, the players made Highland proud through their outstanding effort.

An added bonus to this long list of credits was the naming of five Highland members to the seven member Lake Suburban Conference team. Seniors Amit Bajaj, Mike Edwards, Chris Granger, Derek Haas, and Jason Olah were those chosen to represent Highland. These same five were also chosen for the Academic All State Tennis team.

## Lady Volliers Leap To Victory

Miller

Baron

Anticipating the next move by their opponent, Lake Central, are Val Cavelli and Kristi Akin.

Set and ready to block a possible spike is Junior letter winner Denise Ossana.

The year of the Lady Volliers started out relatively slow but improved more and more as the season progressed. The team ended the season with a conference record of 1 and 5, their combined season record was 8 and 19.

After three weeks of tough after school practices, the 1988 season was under way. The ladies defeated tough opponents which included Portage, Hebron, and Michigan City Marquette.

During the regular season the team lost a very important and very close game to Lake Central, 15-12, 7-15, and 10-15. During the Sectional Tournament the Girl's Volleyball team would face Lake Central once again. Preparing for what they knew would be another tough match, the girls gave it their all but in the end they would

lose again in yet another close match, 8-5, and 10-15.

At the annual sports banquet individual awards were given. The award of most valuable player was given to senior Jean McGee. The girl who improved the most throughout the season Denise Ossana, was awarded the Most Improved award. Someone who really gave it her all and kept the team going through all those hard practices and tough meets was honored with the award of Best Mental Attitude. This diverse individual was junior Jen Banas.

Next season coach Pam Wilson will have many returning letter winners. These players include juniors Jen Banas and Denise Ossana.

## Not Just Sharks and Minnows

Robinson

At about 5:30 in the morning, when everyone else is far from waking, the girls on the swim team are already having their breakfasts (usually something that is nutritious; the famous pop-tarts come during the second breakfast after morning practice) and are getting ready to walk out of the house and into a frosty car. Awaiting them is an even colder pool and more of a workout than some people can handle in a week. After school, the team practices for another two or two and a half hours, finally coming home with the sky as dark as it was before dawn. If they have a meet, the girls are together for an even longer time, some days last until 9:30 or 10:00. This schedule makes for a very close group, even in the off season. It also seems that the saying, "The team that plays together stays together" applies to the swimmers.

Perhaps it is this team unity

that produced an outstanding record of 10 4 1. This is an immense improvement over last season's 7 7. Another factor that contributed to the swimmers' success was an increase in the level of experience. Most of the new freshmen that came onto the team had previously competed with the swim club. Those who did not, however, had a desire to learn to win.

Team captains were seniors Karey Foster, Mary Hinkle, and Stacey Mustard. The big leader of the team was Coach Brian Toweson, and he was assisted by diving coach, Johnathan Johnson. Together, they fostered a team that became prevalent among conference champions and qualified every swimmer that swam at prelims for a swim at sectional.

Kelly Kerr.

Only seconds before the 200 Medley relay, tensions run high for the Trojans in lanes 2 and 4.

Baron

Mary Hinkle and Kelly Kerr wait for the final results at the Highland Invite.

While fly takes endurance, the breaststroke needs coordination.

Robinson

After the meet, Coach Toweson holds a famous team meeting to discuss times.

Senior Karey Foster was often found deep in concentration.

"The winning feeling is so excellent! In fact, my favorite sound is the click of the touchpad when I touch out an opponent. I think we all learned to feel that this year."  
-Sophomore Krysten Schneider

## Splashing to Victory!

Row 1: M. Groomon, J. Rutazak, D. Moutoussing, T. Fuzkos, L. Renkling,  
Row 2: K. Foster, M. Fritz, P. Kutrach, K. Schneider, C. Wozniak,

Row 3: J. Zdunsky, K. Berda, K. Foster, K. Kerr, M. Cserli, J. Flannagin, Row 4: Coach Toweson, S. Mustard, M. Hinkle, J. Bannister

This year's most valuable swimmer for the Trojans was senior Stacey Mustard. She swam for Highland for four years, and this year qualified for state in the 500 freestyle.

Sharing honors were sophomores Jacquie Bannister and Jamie Flannagin. Bannister won the best mental attitude award, while Flannagin took most improved.

State qualifiers were abundant, with senior Mary Hinkle qualifying in the diving event, Mustard in the 500, and a 400 free relay consisting of sophomores Jessica Zdunek, Jacquie Bannister, Jamie Flannagin, and senior Karey Foster.

## ALL STARS

# Cross country

## The Winner Keeps Running

Baron

A youthful group made up of juniors, sophomores, and freshman, with only a handful of returning runners from last years state qualifying team, made up the 1988 girls cross country team. Though this team lacked in experience, it made up in dedication and hardwork by all the girls and Coach Furman. They believed that it is not always the swiftest that wins, but the one who keeps on running and running. Even though this years Long Blue Line did not receive all the honors of teams in the past, the girls never quit and improved throughout the year.

Becky Linger was named Academic All State. Juniors Agnes Czyszczon, Darci Sudlak, Rhonda Van Prooyen, Judy Tillner; Sophomores Jamie Pawlus, Julie Petska; and freshman Monica Z. ran in the sectional race. These girls plus a large cast of

additional underclassmen make the future bright for Highland's Cross Country tradition.

Supporting their new coach, Scott Van Senus, the boys cross country team also dedicated the season to hardwork and improvement. Getting used to a new coach was not easy for the young team, but they managed to pull through.

Coach Van Senus is an alumni from Highland. He also holds records in cross country and track for Highland. He may have used some of these techniques in coaching his first team.

Jean Kasczka

Junior Lisa Andrews and sophomore Katy Skinner head up the Long Blue Line toward the finish.

Coach Furman clocks junior Judi Tillner as she runs to the finish line, going for her best time.

Senior Brad Slyconish was a captain for the boys' team this season. An excellent runner, he is also on the track team.

"It's really cool that Coach takes us on all of the outings he does—like Great America and Chicago. Being together as a team makes us really close, and being close and supportive of each other is very important for winning meets."

Jean Kasczka

The girls' cross country team was led by many great people this season. Monica Zakrzacki took first team All Conference honors, while Rhonda VanProoyen was named second team All Conference. The mvp was Zakrzacki, while the most improved was Julie Petska and the best mental attitude award went to Becky Linger.

The boys' team had a second team All Conference honor, Arthur Guerrero. Guerrero was also the mvp, while the most improved honor went to Mike Sable and Brian Lane won the mental attitude award.

# We've got spirit— how 'bout you?

It's obvious that a team won't be going places if morale is low, and it's probable that there won't be victory parties for an excessively passive team either. The cure for both of these problems is to get psyched up.

Team spirit means more than getting wild twenty minutes before a game. First of all, team spirit is generated by a close team. Athletes have an easier time screaming and yelling for their friends instead of trying to cheer on someone who is just a teammate. Sometimes people tend to overlook

the fact that sports are for entertainment, and everything is a lot more fun when people on a team are friends.

Some teams really get into team spirit by wearing special clothes that single team members out. Sometimes members even wear special things along with uniforms at games. The girl swimmers, for example, often wear Trojan stickers on their faces or write on each other with blue markers before certain events.

Once a team is confident as a whole, individual athletes can concentrate on their own

performances. Any coach or serious athlete knows, of course, that mental preparation is about 90 percent of the battle. Finally, teams with great spirit of their own will attract attention from the whole school.

Sophomore Carrie Houchin gets in on the action even before the game starts. The football team always gets rowdy to psych up.

The Highland Lettergirls serve as a cheer block for teams. Both the Lettergirls and Cheerleaders are a big morale booster.

Baron

## Iler, Milausnic: Lead Highland!

**B**asketball has always been a great sport at Highland High School. This year our basketball team was full of talent, and it really showed with each performance. This seasons head varsity coach was Mike Urban and assistant coach was Pete Hedges. With the excellent coaching of Mike Urban, the Trojans were shaped into a team that worked together and for each other. This years senior varsity players were Keith Iler, Bob Kallen, Mike McLean, Dave Opperman, Mike Crnkovich, and Blake Werner. All of these varsity seniors have

done excellent throughout the past four years and will be greatly missed.

Although the team suffered a few losses throughout their season, they did have many exceptionally fantastic wins. The Trojans Began the season with a large win over Morton. Then, they easily defeated Crown Point at the holiday Tournaments. Once again, the Trojans went on to beat Andrean. Lastly, Highland won against Michigan City Elston at our last home game of the season. The basketball team kept the crowds out of their seats

as they went into double overtime and won in the last seconds of the game.

Not only did the senior players help make this season a success, but the juniors did also. Juniors on the varsity team this season were Joe Oakley, Dave Mulausnic, Darren Gentry, Greg Liddle, Mike Akrop, John Milligan, Mike Turner, and Ryan Grigson. Highland High School will look forward to these talented players next year.

All the time and extremely hard work put into this basketball team was worth the effort.

Baron

Concentrating his hardest to make this free throw is senior Mike Crnkovich, at the exciting Michigan City Elston game.

Trying desperately to get inside to pass the ball to fellow team members, is senior co-captain Keith Iler, at the Michigan City Elston game.

## Ratkay and Peterson Lead Ladies!

Veteran girls basketball coach John Onoff had a young team to instill his hopes for a successful season. Nothing could have made his hopes come true. This years Lady Trojans allowed less points to their opponents than the previous year. The varsity final season record was six wins and thirteen losses. Junior varsity had a little more luck, they ended the season with eight wins and ten losses. Despite the record this years team did an outstanding job.

The Ladies opened the sea-

son with wins against Hammond High and Griffith. In a great game against Gary Wirt High School, the Trojans led the whole game, when the clock began to wind down Gary Wirt began to close in on Highland's lead. Laura VanDerWall shot two free throws to put the game into overtime. Senior co-captain Tonia Peterson shot a last second two pointer to give Highland the win.

The last home game of the season the senior players really shined. Senior captains Kathy

Ratkay and Tonia Peterson had the best game of their lives according to Coach Onoff. When reflecting on the game Kathy Ratkay said, "It was a perfect ending to my funnest basketball season."

The season did have individual highlights. Kathy Ratkay was this year's leading scorer, she averaged 17 points per game. Kathy also led with the most rebounds. Junior Michelle Connly was the second scorer, she averaged 9 points per game.

Angie Malkowski

## Plenty Of Victory Laps Here!

Bob Challman looks away unable to swim with a cast.

Senior Jim Stange takes off during the breaststroke leg of the 200 medley relay.

The Trojan Swimmers have always had a reputation for being a tough team to beat not only in the Lake Suburban Conference, but in the entire state. Like the girls' team the guys are a group that is united by strong friendships and goofy antics. It is hard work, however, that makes them successful for the most part.

The team begins its pre season training in the fall, toward the end of October. First they run and lift weights; then sharing the pool with the girls' team, they work out and get in shape for a season that lasts until the end of February.

This year, the swimmers were very successful, taking 3rd in Conference and getting second at Sectionals.

Advancing to State were Freshman Brian Bucksar in the 100 Freestyle, Junior Jason Adams in the 50 Freestyle, Junior Matt Deleget in the 200 and 500 Freestyle, Senior Jim Stange in the 100 Breaststroke, Senior Ron Blink in Diving, and a Medley Relay of Jeff Mihalic, Bucksar, Stange and Adams. Also qualifying was the 400 free relay of Bucksar, Adams, Deleget and Stange.

Senior captains Jim Stange, Jim Wagman, and Ron Blink helped Coach Brian Toweson lead the team along with Assistant Coach Alan Krygier. Krygier is a veteran of Highland swimming, holding school records until this season.

# Gymnastics

## Vaulting to victory

As the 1988-89 gymnastic season opened, second year coach, Tiffany Atkins was thrilled to see that the number of team members jumped to 17 from only 6 the year before. As senior Mary Hinkle said, "The additional team members made the year better." The girls cheered each other on "to do their best." Of the girls that returned, only senior Mary Hinkle, junior Agnes Czyszczon and sophomore Michelle Greeson had varsity experience. Juniors Jeannie Kaczka and Jennifer Venable

had gymnastic experience, but never competed in a high school competition. Many of the younger members had never been involved in the sport. This lack of experience, plus a tough schedule (four of the 8 teams on their schedule ranked in the top ten in the state) left this year's team record at 2 wins and 6 losses. Also leading to some of the losses were injuries to key members who missed meets that might have ended up in the win column.

The season opened with a win against Lowell with

Jeannie Kaczka placing second all around. Agnes C. also contributed to the victory with a solid all around performance. The highlight of the season was the Highland Invite. Fourteen teams invaded Highland with many of their standing in the top ten. After a day of outstanding gymnastics, Jennifer Venable placed fourth on the floor competition while Jeanne Kaczka was misplaced by a tiebreaking rule. Mary Hinkle and Agnes C. also competed well.

## Regionals and Semi-State Champion—Kepler

Everyone can remember the Highland Grapplers running around the halls after school when everyone else was on their way home. Everyday the guys would run around and around the halls to keep in shape, maintain their quickness, and focus their concentration. Their practices are long and very rigorous, as is with any sport. First time coach Fred Kepler had high hopes for this years team and wanted to see the best results he knew his team was capable of. The team had no problems

with Coach Kepler, they appreciated everything he did. Coach Kepler had plenty of talent to work with. Returning lettermen were seniors Chris Price, Kenny Riley, Jim Grabill, Bill Kepler, and junior Jeff "Killer" Kentowski.

The Grapplers started the season out positively with a great victory over Hammond Gavit. Other outstanding triumphs this season included wins over Munster and Griffith. Later on in the season Lake Central and Morton would fall to Highland.

The team was victimized by a few injuries throughout the duration of the season. One of which was Kenny Riley's leg which had torn ligaments. Luckily he was only out for a few weeks. "Killer" Kentowski also was wrestling with injuries, he went on wrestling with both wrists sprained. Despite these injuries to key team members Highland did win Sectionals!

Senior captain Bill Kepler was the only member of this years team that qualified for the state championship.

Robinson  
Wrestling great and doing an outstanding job for Highland is senior Kenny Riley in a meet against Lake Central High School.

Dominating his opponent is senior captain Bill Kepler. Bill is just a few seconds away from the pin and another triumphant victory.

# Listen Up! Varsity Isn't The Only Sport!

Many students participate in high school sports. Still many others participate in sports outside the school grounds. These students have interests other than football, basketball, and baseball. These individuals find it interesting and challenging to compete with many different age groups and surroundings. For instance Senior Steve Prast is a competitive cyclist, when asked why he likes to ride he says, "It's a fun and exciting alternative to the regimen of high school sports."

Another popular after school

Senior Steve Prast's favorite outside of school activity is biking. In this particular shot he is riding across Fort Wayne, one of his favorite places to ride.

sport is fishing. Senior Scott Wolendowski enjoys going on long fishing trips in Canada, as well as spending a few hours at Wolf Lake. Many people don't consider fishing a sport, but all one has to do is talk a few minutes with senior Roger Mullins and he will be more than happy to set you straight. Along the lines of fishing many individuals like to go hunting. The wild game includes deer, pheasant, and squirrels. Even teachers enjoy outside sports, biology teacher Herb Schmidt enjoys thoroughly the sport of

hunting.

On the more mild side, there is sports like skiing, ice skating, and running. One very popular outside activity is intramural basketball at Lincoln Center. A group of boys within the same age group choose a team, and compete against other high school teams in their division. At the end of 6 weeks the top teams compete for the championship.

One advantage to these sports is the time of year doesn't affect the playing schedule.

Angie Malkowski

Senior Niky Moulesong and Junior Christine Borman enjoy an evening of ice skating at Homewood Flossmore. They are having a bit more luck skating than the girl behind them.

Biology teacher Herb Schmidt enjoys fishing with friends at beautiful Lake Jean in Ontario. Senior Shelly Adams loves skiing at Boyne.

Senior Sheri Sepiol shows her fellow shipmates Michele May and Angie Malkowski how to snorkel in Cozumel. Scott Wolendowski shows his catches.

## Horn, Kallen, Casas Lead Highland Hitmen!

Spring and baseball are synonymous. You cannot have one without the other. When the weather gets warmer the Highland bats get hotter.

This season the Trojans opened up their season with victories over Griffith, Lake Central, Lowell, Lake Station, and Wheeler. Trojans did lose a heartbreaker to Munster in the last innings.

Returning varsity letter winners include Dan Casa, Gordie Horn, John Kallen, Ron Blink, Doug Bregar, and Chris Ferko. With such talent up front the Trojans had no place to go but to the top. Senior Co-captain Gordie Horn looked back on the season in

these words, "In the beginning it was awkward and we didn't fit as a team, but after a while it all came together, and from then on there was no stopping us."

The varsity team was coached by senior history teacher Dan Miller and was assisted by Gordon Horn. The junior varsity team as well as the freshman team was coached by Duane Goubeaux.

The junior varsity team started the season with an undefeated record. Their outstanding victories were against Lake Station, Morton, Hammond, Wheeler, Bishop Noll, and Griffith. Junior pitcher Mel Derolf enjoyed the season

and the way the team came together and beat some very tough opponents.

The baseball season lasts all spring starting in April and ending in June. Three months of double headers, hours of after school practices, not to mention all the extra time that is spent at batting cages and pitching balls at Homestead, and early Saturday morning games. Junior John Kallen knows how much goes into the game because he spent hours practicing in a warehouse all for America's favorite past time.

## Ace Jen Banas leads Lady Trojans

The Highland Girls Softball team have to be a strong team again. They are fighting for the Lade Suburban Conference title against a strong opponent: Lake Central.

The Lady Trojans defeated Griffith, Lake Central, Crown Point and Merrillville. They finally defend their three year losing streak to Merrillville by defeating them 9-2. In the beginning of May, they were ranked sixth, and as more games are played, they hope to move up higher on the ranking.

Ace pitcher Jen Banas leads the team. She is only a junior, and will be returning next year

to help keep the team strong.

The leading hitters are seniors Karen Szot, Tammy Cullon, and Kim Krivich. They are also helped by seniors Tara Tarbaum, Tanya Petersen, Mary Hinkel, and Jean McGee.

Highland's Girls' Softball holds a very young team consisting of thirteen sophomores, spread out between Junior Varsity and Varsity. There are three juniors who will be back next year to help contribute. Some returning players are Lori Petersen, Amy Temple, Wendi Sudlak, Shelly Conley, Sue Pawolsky, and Jill Bartlett.

Under the co-direction of

Coaches Rose Bright and Jerry Hedges, the team came through spring training with many of the basic skills in place. They started the season well ahead of many other conference teams in conditioning and skill level.

One of the perennial threats to conference softball, the Lady Trojans have moved to a position of envy in the area. With every position filled with strength and either talent or a lot of promise, they look to continue their prowess as a constant threat to any team which takes the field against them.

## Boy's Win Conference and Girl's Place Third.

The 1989 Highland Track and Field team was led by Mr. Coudret, Mr. Summers, Mr. Furman, Mr. Van Laan, and Mr. Valiska. The sweat and tears the team emitted paid off with a win in conference for the boys and a third in conference for the girls. Workouts stretched over a grueling four month span for both the girls' and boys' team, starting in February and coming to a close at the end of May.

The girls' Track Team, unique in that it was one of the bigger teams (and, incidentally, had only one senior, Tara Kasbaum), sought improvement through tougher and more productive workouts. These workouts reaped the reward of many wins throughout the season for the team as well as for individuals.

Of these individuals who contributed to the team by qualifying for sectionals were Katy Skinner, Gena Emanule, Kim Wilson, Tonya Lascso, Jeanne Kaczka, Agnes Czynszcon, Denise Ossana, Jamie Pawlus, Becky Linger, Leah Wermuth, and Monica Zarzarki. An excellent performance in the 3200m, freshman Monica Zarzarki was Conference and Sectional Champion. A job well done by Becky Linger in the 1600m for placing third in sectionals.

The guys did an incredible job this season. They finished their conference season with a 51 record. Their only loss was to Lake Central by a heart-breaking two points. Going into Sectionals the Highland team was only expected to get third at best. But with excellent coaching by Coach Fur-

man and Coudret along with great efforts by all, the team finished in First. The meet was great.

The team finished third in the IHSAA Sectional meet. Those athletes who qualified for Regionals at Gary Roosevelt were Sectional champions Joe Munoz, John Miligan, Ryan Grigson, Jon Lesczynski, and the relay team members, Larry Scott, Rob McDonald, Mike Wells, Greg Liddle, Robert Schwingendorf, Tony Gilless, and Joe Oakley.

Both the girl's and boy's track team did incredible jobs this season. With the coaching of Furman, Coudret, and Van Laan how could the team go wrong. All of these athletes should be proud of their performances.

Angie Malkowski  
Jeanne Kaczka

## Trojans Kick!!

This year's Highland soccer team had to start the season with the loss of many valuable seniors. The team fought hard through the year thou with freshmen Marko "Pele" Trivonovic and sophomore Corie Houchin. Both leading the team in scoring. With a majority of the team being underclassmen, the years to follow show great promise. The difference was led by seniors Chris Price, Bill Cowgill,

Eli Galich and team captain Rick Whiting. The whole team really gave it their all the last game of the season against Lake Central in one of the toughest games they played all year.

Soccer will be a sanctioned sport next year, the team finally will have something big to shoot for.

### Ilija Galich

Senior Golf star, Eric Wilson concentrates just seconds before tipping the ball into the hole.

Front Row: Jeff Kantowski, Doug Vincent, Eric Wilson. Back Row: Bill Kepler, Eddie Wlekinski, Eric

Maar, Chuck Linebaugh, Coach Dan Richardson, and Chris Dragus.

# Link Men Break Par!

Golf is one of the varsity sports that everyone seems to neglect. It's not one of those sports that people grimace at when it's mentioned, but the golf players don't exactly have the entire school's support at their meets. Furthermore, it is a finesse sport that takes a lot of time and practice to master. Many players have known the sport for all of their athletic lives, but as with any team, there are also members contributing to the team effort that have only recently begun to enjoy the sport. All of these factors didn't seem to hamper Jeff Kantowski, Doug Vincent, Eric Wilson, Bill Kepler, Ed Wiklinski, Chris Dragus, Eric Maar, or Chuck Linebaugh, since they all returned to the smallest team at Highland.

The team lost many seniors this season, but retained star golfers, Bill Kepler and Eric Wilson. The rest of the starting lineup was rounded out by juniors, Doug Vincent and Jeff Kantowski. Coach Richardson said that, "the J.V. team is an essential part to the future of Highland golf."

Kelly Kerr

Senior Bill Kepler gets ready to tee off. Kepler is a four-year veteran of the golf team.

soccer

Senior Chris Price, a two-year veteran of the soccer team led the defensive attack for the Trojans.

# girls' **T**ennis

## New Coach gets team off to a good start

It's spring. The ice and snow are gone along with those cold dark days with nothing to do. With spring comes a new line of sports. Soccer, track and field, softball, and then there's that one special sport. Racing, pounding feet slapping hard on the surface of the courts. Yeap, you guessed it, along with spring comes Highland's Girls Tennis.

This year the girls started out their conditioning, and season with a new coach, Michele Krusa. She is a veteran tennis champ, and teacher, although the spring of '89 was formally her first year as a high school coach. The girls started off the season with a loss

to Portage, and then came back to win easily against Chesterton. The girls played several tough schools, and play their best against each. A lot of the matches were victorious, but along with those accompanied some losses.

Ending the season with a total record of 6-7 the girls were happy with the season. It seemed to be a little harder to beat the more advanced schools, such as the number 6 ranked school in the state, Munster, without the help of Debbie Bell, who graduated last year. The usual #1 player, Erica Fenstermaker, battled her way through several tough matches. She always gave her opponents

the toughest challenges. Coach Kursa rotated the girls so that everyone would have a chance to find out what positions they're best at. Melena Culic, usually a singles player, fought against many an opponent to come out the victor. Rhonda Van Prooyen, also a top singles player, worked hard to maintain her great season record. Highland's doubles always seems to be the most exciting. Kim Wilson and Kristine Steen often played #1 doubles. They played several grueling matches that last for over two hours, and usually came out the winners.

▲ Shelley Hill

Robinson

Doubles play takes a lot of cooperation, as Senior Jenny Hook and Sophomore Julie Petska demonstrate.

Right: Rhonda VanProoyen zings the ball back to her opponent.

Far Rt: Megan Fritz and Amy Ferko celebrate after doubles.

Robinson

Junior Erica Fenstermaker received a lot of attention this season due to her many victories.

Schneider

Erica Fenstermaker bites her lip in concentration as she chases a ball to the outer corner of the court.

# GET FIRED UP!!

Being involve in athletics today is a lot different than it was when our parents were involved. Before, a sport was only seasonal, but now that only concerns the competition. A serious athlete will train for months on end, if not the entire year round.

Lifting weights, running, or joining another team sport are ways to keep in shape and be successful for a season, but there is also a new focus on food. Some athletes plan a diet to be lighter, and some go on high protein-low fat or carbohydrate-rich diets for energy.

Still some others take extra carbohydrates, such as a can of pop or a bowl full of noodles, to give them an extra boost.

Even with intense training and good nutrition, however, all is lost without concentration. All coaches and athletes will say that any sport is 90% mental effort. Basically, it does not matter if the entire town is backing someone and the cheerleaders are yelling their heads off if the athlete's heart is not in his performance. There are many ways in which athletes psych up for a match or for a game. The rowdiness

and high spirits of the team is one useful tactic practiced by many athletes. Not only does it set the mood and confidence for individuals it helps the whole team with their performance. Freshman swimmer Christie Wozniak helps herself as well as her teammates psych up for meets by writing on her teammates faces with eyeliner. After the entire team gets psyched together it is up to the individual athletes to do it personally.

Visualization is one way to focus your thoughts along with heavy concentration.

Junior Ryan Grigson keeps in shape for football by weightlifting in the off season as well as during football.

Sophomore Jamie Pawlus focuses all her strength into finishing this cross country race, which takes both mental and physical strength.

Robinson

Baron

Robinson

Senior gymnast Mary Hinkel concentrates her attention on keeping her balance on the beam, while sophomore Corey Hauchin keeps his in the game.

Root

Sophomore Denny Massman awaits the buzzer to start his race and sophomore Michelle Greeson concentrates on finishing her routine perfectly.

# Cheer leaders

## Fired up to win

Cheerleading is a year round dedication. Cheering takes hard work and has a lot of rewards.

This year the cheerleaders were a little different. Instead of 6 varsity and 7 J.V. members, there were 7 varsity and 6 J.V. This change required extra fund raisers for the new uniforms.

The members of this years squad were, varsity, Michele May (captain), Sue Ogrentz, Marie DeRosa, Gena Emmanuelle, Jennifer Venable, Andrea Summers, and Alison Bogusz; J.V., Patti Kovach (captain), Lisa Andrews, Cindy Stanisz, Marsha Grzybowski, Sherry Han-son, Rosy Cook.

At Ball State UCA Cheer-

leading Camp this summer, there was a competition in which a few girls would be chosen to travel to London to perform in a Christmas parade. Highland sent Sue Ogrentz as a representative in this competition, and she was rewarded with one of the few invitations.

The cheerleading sponsors are Mr. Dennis Kaminsky and Mrs. Amy Gleason. They put in long hours of work and use plenty of patience. The hard work along with the girls definitely paid off.

# L

# ettergirls

## Spelling out victory

"Win or lose we'll cheer you", and that's just whay they do. The twenty girls that comprise the Lettergirl squad are not only team supporters, but school supporters as well.

The girls contribute most of their time preparing for the games. It is their responsibility to make the hoop, keep up on the latest cheers, and perform pre game. Co-captains Christine Easto and Nicole Plesha, along with

sponsors Mrs. Gleason and Mr. Kaminsky put in long hours after practices to make sure everything is in order for the weekend.

Then there are the extra things to organize; like pep rallies and parade. One of the squad's traditions is performing at the Little Red School House in Hessville. The girls also take pride in their marching. This year, they placed third in Highland's Fourth of July Parade.

Christine Easto

Juniors Christine Borman and Kara Lippie wait for the players to run out.

Fire up!

M

ajorettes

Adding that extra flair

Change is probably the best word to describe this year's majorette squad. After being separated from the band for many years, this year the majorettes again became a part of the band. Instead of just taking part in a few parades and performing at halftime at the football and basketball games, the majorettes now, in addition, go to band camp and perform in all band competitions as part of the color guard.

Under the direction of Mr. Tim Watt, the majorettes ex-

perienced many new things. They performed in two Chicago Bear's games, two televised parades in Chicago, and they also traveled down to Disney World for spring break to perform for Magic Musical Day. This year the squad consisted of all very hard working girls, ready to give a hundred percent effort. They all adjusted to the changes well, and therefore had a successful year.

Halichak, P. Townsend, K. Morton, J. Keightley, M. Lockery, T. Kubacki, N. Galic, K. Egan, T. Vischak, S. Chong

Business

Local stores vie for teen dollars

Whether it's a few dollars or a major purchase, money has a place in society which no one can dispute.

Money for high school students is also one of the major facts of life. It may be a trip to the mall, which will cost anywhere from ten dollars to a hundred, or merely a trip to a fast food restaurant for dinner or a snack. No matter. What does matter is that money all adds up to huge expenses, and the days of trying to live on five dollars a week simply do not exist any more.

With local merchants all competing for the teen dollar, there is much pressure to attract the youth market. Movies and video rental stores all cater to the teen, since he or she will spend more on entertainment than many adults. Record stores, of course, count on the large amounts of money teens spend for tapes and compact disks. No entertainer makes as much money as the one who can appeal to the teen market, and record companies work in realistic appreciation of that fact.

Is it new clothes?

Is it new wheels?

Is it something new to listen to or watch?

Is it a date or just a meal out with friends?

No matter. It's money that matters in all these things, and it's money which plays a big part in the life of any teen.

Ondas

Whether it's shopping at a novelty store in Indianapolis, like Patti Kovach, Christie Wozniak, Tracy Fozkos, and Tonya Loscalzo, wearing new clothes like Gena Emanuele, Jason Hugus, Lisa Andrews and Jenny Gray, or celebrating a birthday party with Patti Kovach, money enters into most of the things teens like to do.

Colophon

The present yearbook comes thanks to the cooperation of a 24 member staff. The 1000 copies of the 1989 Shield, were printed by Herff Jones Yearbooks in Shawnee Mission, Kansas.

This was the first year that the yearbook covered one and only one complete year of events. Some of the work on the book was done on the Mac II computer Freehand

program. These computers are a new addition to the staff this year. Such things as the cover, title page logo, the index, art lines in the academics section, and some copy, were created with these computers. Computers also helped produce many of the copy blocks in various sections.

This was also the first year that the Shield staff used Herff Jones as their printing company.

The 224 pages were done with 80 pound gloss paper, and the end sheets

were done in 120 pound color text paper. The cover contains leather text silver foil. In terms of print, the body copy was done in 12 point Times. The cutlines are 10 point Times Bold, and the headlines are done in Basic Times, Avant Garde, Ronda and Souvenir.

Root Photographers are responsible for all the album pictures, both senior, faculty, administration, and underclass. They also took some of the candid pictures throughout the

book.

The adviser of this book is Miss Barbara Mayer, and special thanks are due to Miss Susan

Taylor, our Herff Jones Representative, for all of her help.

We've Got The

Edge

W e've got the edge

What's inside matters most

And the year comes to a close, full of memories and a few regrets. Yet in spite of the times things could have gone better, and we could have tried harder, there remain the solid gold of friends made, training paying off, and tests overcome.

Having the edge in any part of life always helps, and after it's all said and done, we find the edge comes only from ourselves. No matter how rich our parents, how lucky the breaks, and how popular or smart or talented or filled with personality we are, it all boils down to one thing—wanting the edge.

While others may see only the surface and judge, it's the edge we get from inside that matters. The desire to be the best we can—the

will to succeed even when others have already doomed us to failure.

With the year full, there are always areas to criticize, and there are answers we must give to those who matter. Yet the hardest answer is always given to oneself, for from that person in the mirror is the only real measure of how much success there has been, and how much of an edge we've really had as we stood among others who faced the same circumstances and worked with their own abilities.

The edge?

It comes from knowing who we are and what we intend to be about.

The band steps onto Soldier Field in freezing weather, proving the edge comes from hard work and the willingness to overcome all odds.

Dan Price and Stephanie Hoe work on their music, while the football team gets in the spirit for this year's Homecoming game on Friday night.

G

igi Boyll, McNabney, Zych star

As the final grading period rolls around, so does the spring musical. A group meeting was held and it was announced that the 1989 spring musical would be GIGI. Auditions were held and back stage positions were assigned. The Northwest Indiana Premier of GIGI was on its way to becoming one of the best musicals that Highland Theatre Company has ever produced.

The show was lead by a strong cast of veterans. Gigi was played by Debi Boyll and Jim McNabney starred as Gaston. The parts of Honore and Mamita were portrayed by Dave Zych and Pattie Hanyzewski. The supporting cast consisted of Leigh Lawrence (Aunt Alicia), Kelly Egan (Liane), Scott Harvey (DeFresne), and Pat Hoadley (waiter).

The show was produced and directed by Larry Brechner with the help of Carol Lynn Brechner as

assistant director, Craig Deets as music director, Kim Harding as student director / choreographer, and Sean McCarthy as assistant student director.

The show started off with a few problems, but as always, the cast and crew pulled together to put on an excellent performance. The time and effort paid off when it was announced that there would be a raving review of the show in the weekend edition of the Post Tribune. Closing night came and tears were shed as Seniors said goodbye to their second home. The next day the sets would be torn down and costumes would be stored. The only thing that would remain of GIGI was the memory of a group of students joining together for two months to produce an outstanding show.

Root

Boyll

Upper left, The Can Can dancers led into Gigi, with David Zych and Jim McNabney, upper center, in the male leads. A strong performance by Debi Boyll in the title role was the show's best asset.

Sharing the stage with a strong supporting cast, Debi Boyll greets Patti Hanyzewski, Leigh Lawrence, Scott Loane, and Scott Harvey.

The honor of being this year's king and queen went to Dave Milausnic and Jenny Gray. Incidentally, the two happen to be dating right now.

Below: Juniors Brenda Yoho and Jen Banas kneel for pictures as they walked into the dance hall.

Mehoe, Matt Leyva stops at the favors table to grab a fusan and fan for his date, Jean Kaczka.

GRADUATION

Granger, Haas lead class

Last class of the '80's bows out of Highland High

Their class motto is simple enough, yet it manages to call up the hopes which are easy for young people. "Success Is Within Your Reach" said the words behind them, and as the Class of 1989 moved across the stage, there were those who even believed their real success just might be more than a dream.

With valedictorian Chris Granger and salutatorian Derek Haas urging classmates to remember the good of high school and move ahead with determination, the last class of the '80's at Highland High School took their diplomas and became official alums. Their colors were blue and gold, their flower the light

blue carnation, and their song was "One Moment In Time".

For this moment in time, June 11, 1989, Class sponsor Mrs. Kathleen Nowicki joined the seniors as they went through graduation exercises. Principal Marrior Hoyda presented the group to Superintendent Dr. Philip Cartwright, and diplomas were awarded.

This year the invocation was offered by Reverend Arthur Burkman, pastor of Redeemer Lutheran Church. The Highland High band played Phantom of the Opera, and the Mixed Choir had graduates sing with it one last time for "We Hold the future" by Jerry Ray.

Members of the Board of

School Trustees, led by president Lawrence Vassar, awarded the diplomas, and the Highland band played the recessional as the Class of '89 headed out into the 90's and the century beyond.

With no guest speaker this year, the commencement exercises were a bit shorter, but still carried the feeling of one phase of life ending while the future already called ahead with further challenge and hope.

Graduates Tami Czaja and Eli Galich join their classmates to celebrate graduation. Teachers, grads family and friends witnessed the day.

Valedictorian Chris Granger, Salutatorian Derek Haas, and the senior class officers all helped make the day perfect. Below, Dr. Philip Cartwright congratulates a grad, while David Zych plays one last time in the band.

*We've Got
The Edge!*

And so another year
sends another class
out into the world.
They're Highland, though,
and that will make
a difference.

The difference
of caring,
of trying harder,
of wanting to
let the world know
how it can be

When

You've got the edge!
